

Committee on Technical Barriers to Trade

NOTIFICATIONS ISSUED DURING THE MONTH OF October

In the Second Triennial Review of the Operation and Implementation of the TBT Agreement (concluded in November 2000), Members instructed the Secretariat to prepare a monthly list of notifications. The attached table contains a list of all notifications issued during the month of October, which includes a total of new notifications by Members.

Notifying Member	Notification/ Date of Circulation	Articles	Product/Measure	Objective	Deadline for Comments
Argentina	G/TBT/N/ARG/345 8 October 2018	[X] 2.9.2 [X] 5.6.2		To update existing legislation.	5 October 2018
	G/TBT/N/ARG/346 10 October 2018	[X] 2.9.2 [] 5.6.2		Consumer information, labelling; Protection of human health or safety; Other; Promotion of sodium intake reduction	Not applicable
	G/TBT/N/ARG/347 10 October 2018	[X] 2.9.2 [] 5.6.2	Pesticide active ingredients Insecticides, rodenticides, fungicides, herbicides, anti-sprouting products and plant-growth regulators, disinfectants and similar products, put up in forms or packings for retail sale or as preparations or articles (for example, sulphur- treated bands, wicks and candles, and fly-papers) (HS 3808).		Not applicable
	G/TBT/N/ARG/349 18 October 2018	[] 2.9.2 [X] 5.6.2	Food products: Determination of sodium; General methods of tests and analysis for food products (ICS 67.050).		17 November 2018
	G/TBT/N/ARG/348 18 October 2018	[X] 2.9.2 [] 5.6.2			17 November 2018
	G/TBT/N/ARG/350 29 October 2018	[X] 2.9.2 [X] 5.6.2	Equipos sometidos a presión, con y sin fuego.		No aplica

European Union	G/TBT/N/EU/600 2 October 2018	[X] 2.9.2 [] 5.6.2	Food	The proposed measure is a Commission Regulation for one	1 December 2018

				health claim as referred to above under point 6 that has been assessed by the European Food Safety Authority (EFSA) with a favourable outcome. Taking into account the opinion of the Authority, any relevant provisions of Union law and other legitimate factors relevant to the matter under consideration, a health claim reflecting this conclusion is considered as complying with the requirements of Regulation (EC) No 1924/2006 and should be included in the Union list of permitted claims, established by Regulation (EU) No 432/2012.	
	G/TBT/N/EU/602 3 October 2018	[] 2.9.2 [X] 5.6.2	Food destined to the final consumer		2 December 2018
	G/TBT/N/EU/601 3 October 2018	[X] 2.9.2 [X] 5.6.2	(3,3,4,4,5,5,6,6,7,7,8,8,8-tridecafluorooctyl) silanetriol and any of its mono-, di- or tri-O-(alkyl) derivatives with organic solvents in spray products in a concentration, individually or in any combination, equal to or greater than 2 ppb by weight of the mixtures.	The exposure to (3,3,4,4,5,5,6,6,7,7,8,8,8-tridecafluorooctyl) silanetriol and any of its mono-, di- or tri-O-(alkyl) derivatives (TDFAs) with organic solvents in a concentration, individually or in any combination, equal to or greater than 2 ppb by weight of the mixtures poses a risk to human health, in particular a risk of severe lung injury. The aim of the restriction is to prevent the occurring of the serious lung injury when used by the general public for spraying / impregnating applications. The 18 months of transitional period before the application of the proposed restriction will allow stakeholders sufficient time to comply with the proposed restriction and to ensure adequate communication within the supply chain.	2 December 2018

	G/TBT/N/EU/604 4 October 2018	[X] 2.9.2 [] 5.6.2	Refrigerating appliances	The aim is to allow end-users to make an informed choice when buying refrigerating appliances, thereby pulling the market towards more environmentally friendly products. It will increase energy efficiency and contribute to the fight against climate change in the EU.	3 December 2018
	G/TBT/N/EU/603 4 October 2018	[X] 2.9.2 [] 5.6.2	Refrigerating appliances	The aim is to continue to remove the worst performing refrigerating appliances from the market, thereby pushing the market towards more environmentally friendly products. It will increase energy efficiency, contribute to the fight against climate change and promote a more circular economy in the EU.	3 December 2018
	G/TBT/N/EU/605 5 October 2018	[X] 2.9.2 [] 5.6.2	External Power Supplies (EPS)	The aim of this measure is to continue to improve the energy efficiency of EPSs in a cost effective way and to ensure that more environmentally friendly products are placed on the EU internal market. The measure will contribute to the EU objectives of improving energy efficiency and the security of energy supply, and reducing greenhouse gas emissions.	4 December 2018
	G/TBT/N/EU/606 8 October 2018	[X] 2.9.2 [] 5.6.2	Lighting products	The aim is to continue to remove the worst performing lighting products from the market, thereby pushing the market towards more environmentally friendly products. It will increase energy efficiency and contribute to the fight against climate change.	7 December 2018
	G/TBT/N/EU/608 8 October 2018	[X] 2.9.2 [] 5.6.2	Cosmetics	Protection of human health and safety.	7 December 2018

	G/TBT/N/EU/607 8 October 2018	[X] 2.9.2 [] 5.6.2	Light sources	The aim is to allow end-users to make an informed choice when buying light sources, thereby pulling the market towards more environmentally friendly products. It will increase energy efficiency and contribute to the fight against climate change in the EU.	7 December 2018
	G/TBT/N/EU/610 9 October 2018	[X] 2.9.2 [] 5.6.2	Electronic displays	The aim of the draft Regulation is to provide customers with transparent and objective information on the energy efficiency of electronic displays, and on additional information to compare displays for an informed purchase choice. This will contribute to a market pull towards more environmentally friendly products, with increased energy efficiency, thus contributing to the clean energy transition and mitigation of climate change. Moreover, Regulation (EU) 2017/1369 requires for televisions, which currently have an energy label showing classes from A+++ to D, the introduction of a new, rescaled label showing classes from A to G. Moreover, the draft proposal extends the scope to other displays capable of reproducing video content, such as monitors and signage displays, to address the functional convergence between different display types. The scope extension aims to eliminate a regulatory loophole, resulting in legal uncertainty for economic operators.	8 December 2018
	G/TBT/N/EU/609 9 October 2018	[X] 2.9.2 [] 5.6.2	Electronic displays	The aim of the draft Regulation is to increase the energy	8 December 2018

				<p>efficiency and recyclability of electronic displays in the EU, thus contributing to the mitigation of climate change and development of the circular economy.</p> <p>Existing EU measures addressing energy efficiency of televisions need to be adapted as a result of the technological changes over the past 8 years.</p> <p>Furthermore, there has been a functional convergence between different products, all capable of displaying video content: as only "televisions and television monitors" are covered by the existing requirements, a regulatory loophole exists for other types of displays, this also causes legal uncertainty for economic operators.</p> <p>The proposed regulation therefore covers electronic displays more in general and updates the technical requirements in the light of experience gained and technological progress. It also includes elements aimed at facilitating the safe and cost-effective recycling of such displays.</p>	
	G/TBT/N/EU/611 15 October 2018	[X] 2.9.2 [] 5.6.2	Household dishwashers	<p>The aim of the draft Regulation is to improve the energy and resource efficiency of household dishwashers in the EU.</p> <p>Existing EU measures setting out energy efficiency requirements for household dishwashers need to be adapted as a result of technological changes over the past 8 years. Furthermore, the Review study and consultation with stakeholders identified additional areas for</p>	14 December 2018

				<p>improvement of the Regulation, notably with regard to the ability to repair and recycle these appliances and low use of Ecoprogramme cycles by consumers.</p> <p>The proposed regulation aims to improve the energy and carbon emissions savings performance of dishwashers in the EU and thereby contribute to climate change mitigation as well the move towards a more resource efficient and circular economy.</p>	
	G/TBT/N/EU/612 15 October 2018	[X] 2.9.2 [] 5.6.2	Household dishwashers	<p>The aim of the draft Regulation is to rescale the label in accordance with Regulation (EU) 2017/1369 and to trigger a change in market conditions and appliance optimisation, without damaging the increasing penetration rate of dishwashers into the EU market experienced during the last years.</p> <p>The aim is also to provide customers with transparent and objective information on the energy efficiency of household dishwashers, and on additional information to compare household dishwashers for an informed purchase choice. This will contribute to a market pull towards more environmentally friendly products, with increased energy efficiency, thus contributing to the clean energy transition and mitigation of climate change.</p>	14 December 2018
	G/TBT/N/EU/468/Rev.1 16 October 2018	[] 2.9.2 [X] 5.6.2	In vitro diagnostic medical devices	<p>The objective of this decision is to improve the level of safety of some in vitro diagnostic medical devices put on the EU market: specifically hepatitis C virus (HCV) antibody and antigen combined tests and nucleic acid</p>	15 December 2018

				<p>amplification technique (NAT) for HIV assays. It will reinforce the control by notified bodies of the placing on the market of these in vitro diagnostic medical devices, ensure an equal level playing field for all industry actors and a better functioning of the internal market.</p>

	G/TBT/N/EU/615 22 October 2018	[X] 2.9.2 [] 5.6.2	Washing machines and household washer-dryers	<p>The aim of the draft Regulation is to address energy and water efficiency and the ability to recycle household washing machines and household washer-dryers in the EU. The Commission has reviewed Regulation 1015/2010/EU in the light of technological progress and in view of a possible scope extension to cover washer-dryers. The review study analysed technical, environmental and economic aspects of household washing machines and household washer-dryers as well as the real-life user behaviour. The study was developed in consultation with stakeholders and interested parties from the European Union and third countries. The results of the study have been made publicly available and presented to the Consultation Forum established by Article 18 of Directive 2009/125/EC. The study concluded that there was a need for the introduction of a revised set of ecodesign requirements</p>	21 December 2018

				for household washing machines, also applicable to the washing function of washer-dryers and an additional revised set of eco-design requirements for washer-dryers. Existing EU measures addressing energy efficiency of household washing machines and household washer-dryers need to be adapted as a result of the technological changes over the past 8 and 18 years respectively for washing machines and washer-dryers. The proposed regulation takes into account technological progress and experience gained in implementation of existing requirements, so as to enhance the energy and carbon emissions savings potential of the products covered and the move towards a more resource efficient and circular economy.	
	G/TBT/N/EU/616 22 October 2018	[X] 2.9.2 [] 5.6.2	Household washing machines and household washer-dryers	The aim of the draft Regulation is to provide customers with transparent and objective information on the energy efficiency of household washing machines and household washer-dryers, and on additional information to compare these appliances for an informed purchase choice. This will contribute to a market pull towards more environmentally friendly products, with increased energy efficiency, thus contributing to the clean energy transition and mitigation of climate change. Moreover, Regulation (EU) 2017/1369 requires for household washing machines and household washer-dryers,	21 December 2018

				which currently have an energy label showing classes from A+++ to D, the introduction of a new, rescaled label showing classes from A to G.	
	G/TBT/N/EU/614 22 October 2018	[X] 2.9.2 [] 5.6.2	Electric motors and variable speed drives	The aim is to continue to remove the worst performing electric motors and variable speed drives from the market, thereby pushing the market towards more energy efficiency and environmentally friendly products. It will contribute to increase energy efficiency and to the fight against climate change in the EU.	21 December 2018

Philippines	G/TBT/N/PHL/207 29 October 2018	[X] 2.9.2 [] 5.6.2	Non-Fermented Soybean Products	In 1 January 2018, Republic Act (RA) 10963 otherwise known as "Tax Reform for Acceleration and Inclusion" (TRAIN) Law was enacted amending several sections of Republic Act No. 8424 otherwise known as the National Internal Revenue Code (NIRC) of 1997, as amended, and for other purposes, imposing excise tax on several commodities including sweetened beverages (SB) which are under the jurisdiction of the FDA, introduced as Section 47. For effective implementation, it is timely that the codex food category system and descriptors which are parts of the General Standard for Food Additives (Codex Stan 192-1995, Rev. 2018 or latest) and their specific Codex standards which may be contained in individual Codex standards, Codex General Standard for the Use of Dairy Terms (Codex Stan 206-1999) and Codex standards on milk and milk products as specified in this Order, and Codex Regional Standard for	28 November 2018

				Non-Fermented Soybean Products (CXS 322R-2015 Amended in 2016, 2017 or latest) be specifically adopted by the FDA to be used as guide in classifying and identifying food products. The harmonization of standards, food in particular, is generally viewed as contributory factor to the protection of consumer health. Thus, the adoption of certain Codex standards is deemed imperative.	
	G/TBT/N/PHL/208 29 October 2018	[X] 2.9.2 [] 5.6.2	Sweetened Beverages	In 1 January 2018, Republic Act (RA) 10963 otherwise known as "Tax Reform for Acceleration and Inclusion" (TRAIN) Law was enacted to (a) enhance the progressivity of the tax system through rationalization of the Philippine internal revenue tax system, thereby promoting sustainable and inclusive economic growth; (b) provide as much as possible, an equitable relief to a greater number of taxpayers and their families in order to improve levels of disposable income and increase economic growth; and (c) ensure that the government is able to provide for the needs of those under its jurisdiction and care through the provision of better infrastructure, health, education, jobs, and social protection for the people. The Act covers sweetened beverages (SB) using purely caloric sweeteners, and purely non-caloric sweeteners, and/or a mix of caloric and non-caloric sweeteners, and high fructose corn syrup or in combination with any caloric or non-caloric sweeteners, which are subject to	28 November 2018

				excise tax, except purely coconut sap sugar and purely steviol glycosides. Under Section 47 of the TRAIN Law (E) amending Section 150-B of the National Internal Revenue Code (NIRC), it was provided that starting 1 June 2018, the FDA shall require all manufacturers and importers of SB covered by this Act to indicate on the label the type of sweetener used, and on sweetened beverages in powder form to indicate on the label the equivalent of each serving per liter of volume capacity.

Seychelles	G/TBT/N/SYC/4 25 October 2018	[X] 2.9.2 [] 5.6.2		There is an urgent need in Seychelles to rethink the way in which the country tackles the importation and utilization of plastics so as to help curb the rate at which the Providence landfill 2 is quickly filling up and overall to limit the impacts of non-biodegradable plastics on Seychelles' environment. MEECC is developing a long term strategy to eliminate plastic items in the Environment. The first step was to restrict in July 2017 the sale, manufacturing and importation of some plastic items such as plastic bags, Styrofoam boxes and some plastic utensils. Part of the plastic strategy was to implement this restriction in phases and as a result encourage the sale and use of biodegradable items. Therefore, to slowly remove plastic items in the environment, the Ministry of Environment, Energy and	24 December 2018

				Climate is imposing a restriction on the importation, manufacturing and sales of single use plastic straws.
