

**AMENDMENT NO. 01 APPROVED ON 1986-01-15.**

**SLS 291 : 1974 SPECIFICATION FOR GLASS BOTTLES FOR  
AERATED WATER**

**Page 6**

**Clause 2.2**

Substitute the existing clause with the following :

**"filling level** - The distance from the top of the neck finish to the centre of the meniscus measured on the centre line of the bottle."

**Clause 3 - Nominal capacities**

Amend to read as follows:

"The bottles shall be of the following nominal capacities; 400 ml, 350 ml, 250 ml and 200 ml."

**Clause 4.2 - Neck finish**

Amend to read as follows :

"The neck finish of the bottle shall conform to the relevant neck finish specified in **SLS 601 : Part 2** - Glass container finishes - Crown finishes. The neck finish diameter and bore dimensions shall be measured as prescribed in **8.1.2** and **8.1.3** respectively of **SLS 628 : 1984** - 750 ml Glass bottles with 31.5 mm standard roll-on-pilfer-proof (RCPP) finish for edible products."

**Page 7**

**Clause 4.4**

Substitute the existing clause with the following:

**Capacity at filling level :** The bottles when filled to a filling level of 55 mm shall have the following capacities.

Nominal capacity ml	Capacity at filling level ml
400	+15 400 -0
350	+10 350 -0
300	+10 300 -0
250	+8 250 -0
200	+8 200 -0
