

**AMENDMENT NO. 02 TO SLS 231 : 1973
SPECIFICATION FOR SESAME OIL (SESAME OIL/GINGELLY OIL)**

EXPLANATORY NOTE

In the standard specification sampling clause refers to SLS 319, which is incorrect. The relevant standard specification for sampling is SLS 664.

**AMENDMENT NO. 02 APPROVED 1995-11-23 TO SLS 231 : 1973
SPECIFICATION ON SESAME OIL (SESAME OIL/GINGELLY OIL)**

PAGE 7

Clause 4 - SAMPLING

Change the existing clause according to the following:

4 SAMPLING

4.1 A representative sample of the product shall be obtained in accordance with the relevant clauses of **SLS 664**.

4.2 Number of tests

4.2.1 Each package selected as in **6.8** of **SLS 644 :: 1984** shall be examined for packaging and marking requirements.

4.2.2 The laboratory sample prepared as in **6.9** of **SLS 664 : 1984** shall be tested for all the requirements given in 3.

4.3 Conformity to standard

A lot shall be declared as conforming to the requirements of this specification if the following conditions are satisfied.

4.3.1 Each package examined as in **4.2.1** satisfies the relevant requirements.

4.3.2 The test results on the laboratory sample when tested as in 4.2.2 satisfy the relevant requirements.
