First and third Sunday and the second and fourth Sunday of every month

Sri Lanka Standards Institution (SLSI)
Documentation & Information Division
17, Victoria Place, Elvitigala Mawatha,
Colombo 08.

Stay up-to-date with Standards and Quality

The documentation & Information Division of the SLSI is one of the most prominent special libraries in Sri Lanka in possessing literature on Standardization and Quality Management. Being a specialized information center in Sri Lanka, we offer unique collection of information in a wider scope of local, International and foreign Standards as the sole member of ISO in Sri Lanka.

The major part of the collection consists of National, International and foreign National Standards such as ISO, IEC, BS, EN etc. and Technical regulations. Working to standards not only helps organizations in meeting legal and regulatory requirements, but act as a logical extension to the wider implications of safety and security.

The Documentation and Information Division of SLSI has been designated as the WTO/TBT National Enquiry point on standards and Technical Regulations.
