TBT Notification

August - 2024

In the Second Triennial Review of the operation & Implementation of TBT Agreement (concluded in November 2000), members instructed the Secretariat to prepare a monthly list of all notifications. The attached table contains a list of all notifications issued during the month of August , 2024 which includes a total of new notifications by members.

Notifying Member	Distribution date	Document symbol	Title	Description	Products covered	HS code(s)	ICS code(s)	Objectives	Final date for comments	Notification type
Armenia	22/08/2024	G/TBT/N/ARM/101	Draft amendments to the Technical regulation N025/2012 of the Customs Union «On safety of furniture products»	The draft amendments to the Technical Regulations of the Customs Union "On safety of furniture products" was developed to bring it into line with the Treaty on the Eurasian Economic Union, and adjust the conceptual framework in terms of defining concepts and requirements for furniture products.	Furniture products	94 - FURNITURE; BEDDING, MATTRESSES, MATTRESS SUPPORTS, CUSHIONS AND SIMILAR STUFFED FURNISHINGS; LUMINAIRES AND LIGHTING FITTINGS, NOT ELSEWHERE SPECIFIED OR INCLUDED; ILLUMINATED SIGNS, ILLUMINATED NAMEPLATES AND THE LIKE; PREFABRICATED BUILDINGS	97.140 - Furniture	Protection of human health or safety (TBT)	20/09/2024	Regular notification
Armenia	22/08/2024	G/TBT/N/ARM/100	Eurasian Economic Commission Collegium Draft Decision on amendments to the Section 10 of the Chapter II of the Common sanitary-epidemiological and hygienic requirements for products subject to sanitary-epidemiological supervision (control);	The draft amendments to the Section 10 of the Chapter II of the Common sanitary-epidemiological and hygienic requirements for products subject to sanitary-epidemiological supervision (control) approved by the Decision of the Commission of the Customs Union dated 28 May, 2010 No. 299 provides for the updating the safety requirements for materials for products (products) in contact with human skin, clothing, footwear.	Materials for products (products) in contact with human skin, clothing, footwear		61.020 - Clothes; 61.060 - Footwear	Protection of human health or safety (TBT)	19/09/2024	Regular notification
Armenia	22/08/2024	G/TBT/N/ARM/102	Draft Decision of the Council of the Eurasian Economic Commission on the Rules for Regulation of the circulation of feed additives within the customs territory of the Eurasian Economic Union	The draft provides for the approval of the Rules for regulation of the circulation of feed additives within the customs territory of the Eurasian Economic Union (hereinafter - the Union), which include:- common rules for the regulation of the circulation of feed additives;- a common procedure for the registration of feed additives, as well as other procedures related to registration;- a common assessment procedure with respect to the quality, safety and efficiency of feed additives, as well as criteria for their assessment;- common principles of information exchange while organizing and conducting state control (supervision) in the field of feed additives circulation;- common registration forms;- a common register of feed additives inscribed under unified Union rules;- a common information database on low-quality, unsafe feed additives, falsified and (or) counterfeit feed additives detected under state control (supervision) with respect to feed additives circulation;- a common database on animals' adverse reactions to feed additives;- a common register of producers of feed additives, the production of which is recognized to comply with the Union's unified requirements	Feed additives	2309 - Preparations of a kind used in animal feeding	65.120 - Animal feeding stuffs	Protection of animal or plant life or health (TBT)	20/09/2024	Regular notification

Armenia	22/08/2024	G/TBT/N/ARM/103	Eurasian Economic Commission Collegium Draft Decision on amendments to the Section 14 of the Chapter II of the Common sanitary-epidemiological and hygienic requirements for products subject to sanitary-epidemiological supervision (control),	The draft provides for the updating of the Section 14 of the Chapter II of the Common sanitary-epidemiological and hygienic requirements for products subject to sanitary-epidemiological supervision (control) which regulates the requirements for individual protection equipment.	Individual protection equipment	13.340 - Protective equipment	Protection of human health or safety (TBT)	24/09/2024	Regular notification
Australia	30/08/2024	G/TBT/N/AUS/174	Call for submissions, Application A1260 – 2-Methyloxolane as a processing aid; Supporting Document 1 Risk and technical assessment report, Application A1260 – 2-Methyloxolane as a processing aid;; (28 page(s), in English)	FSANZ has assessed an application to amend the Australia New Zealand Food Standards Code (the Code) to permit use of 2-methyloxolane (2-MeOx) as an extraction solvent processing aid. 2-MeOx can be used to extract and separate oils and proteins from plant-based products, including oilseeds. It can also be used to extract components such as flavours, fragrances and colours, again from plant-based sources.FSANZ concluded the extraction solvent achieves its technological purpose. An identity and purity specification is to be inserted into Schedule 3 of the Code (which reflects the specifications detailed in Commission Directive (EU) 2023/175 dated 26 January 2023), to ensure the product meets the appropriate requirements so that the presence of certain impurities is minimised. FSANZ proposes to set maximum permitted levels (MPL) for residual 2-MeOx in foods: 3 mg/kg for infant formula products; 5 mg/kg in foods for infants and formulated supplementary foods for young children; and 20 mg/kg for other foods.No public health and safety concerns were identified from 2-MeOx as an extraction solvent at the proposed MPLs.	Foods sold in Australia (both imported and domestically produced)	67.020 - Processes in the food industry		24/10/2024	Regular notification
Australia	19/08/2024	G/TBT/N/AUS/173	Approval report, Application A1247 D-allulose as a novel food; Supporting Document 1 Risk and technical assessment Application A1247 – D-allulose as a novel food.	FSANZ has assessed an application to amend the Australia New Zealand Food Standards Code to permit the sale of D-allulose from enzymatic conversion of fructose by D-psicose 3-epimerase contained in <i>Microbacterium foliorum</i> as a novel food in Australia and New Zealand. The relevant aspects of this application are to amend the Code to:permit D-allulose in certain foods to maximum permitted levels. For details, refer to Attachment A in the Approval Report (refer to the link provided in 5 above);include an energy factor of 2 kJ/g for D-allulose for nutrition information labelling purposes;require the label of a food containing D-allulose to carry an advisory statement about the risk of a laxative effect from high intakes of some food classes; andpermit foods	Foods containing D-allulose sold in Australia (both imported and domestically produced)	67.180 - Sugar. Sugar products. Starch	Other (TBT)	18/10/2024	Regular notification

containing D-allulose to make nutrition content claims about sugars including no added sugar(s), provided existing claim conditions are met.

Bahrain, Kingdom of	23/08/2024	G/TBT/N/ARE/623, G/TBT/N/BHR/708, G/TBT/N/KWT/687, G/TBT/N/OMN/532, G/TBT/N/QAT/683, G/TBT/N/SAU/1351, G/TBT/N/YEM/289	UAE GCC Technical Regulation for Processed Tomato Concentrates	The standard is concerned with processed tomato concentrates and offered for direct consumption, including for catering purposes or for repacking if required. The Standard does not include products that contain seeds and skins and it does not include tomato (ketchup), tomato sauce, or similar products, which are highly seasoned products of varying concentrations, containing ingredients such as pepper, onions vinegar, sugar, etc. in quantities materially alter the flavour, aroma and taste of the tomato component.	Fruits. Vegetables (ICS code(s): 67.080)	67.080 - Fruits. Canada	29/08/2024	4	G/TBT/N/CAN/725/Add.1	Supplementary Rules Respecting Nicotine Replacement Therapies Order	The Supplementary Rules Respecting Nicotine Replacement Therapies Order (this Order) applies to nicotine replacement therapies (NRTs) for administration in the oral cavity that are regulated under the Natural Health Products Regulations for use in smoking cessation by adults who smoke. This Order introduces new measures that: Incorporate by reference the List of Nicotine Replacement Therapy Dosage Forms that may be Accessible for Self-selection by Purchasers or Consumers (the List); Prohibit direct public access to dosage forms of NRTs that have a limited history of appropriate use, which are not on the List, by requiring that they be sold by a pharmacist or someone under their supervision and are otherwise inaccessible for self-selection; Require warnings about the addictive nature of nicotine and statements conveying the intended subpopulation (i.e., individuals 18 years of age or older) on product labels and in advertisements; Restrict advertising and promotion that could be appealing to young people or if they convey a use other than the product's intended use (i.e., smoking cessation); Restrict packaging and labelling that could be appealing to young people; and Prohibit persons from manufacturing or selling NRTs that are in certain flavours as outlined in the Order. The Order comes into force immediately upon publication.	Medicaments ICS:11.120.10		11.120.10 - Medicaments; 11.120.10 - Medicaments	Other (TBT)	Addendum to Regular Notification

At this time, NRTs must not be manufactured or sold unless they are compliant with the flavour restrictions set out in the Order and NRTs in dosage forms not on the List must not be sold on a retail basis except by a pharmacist or an individual working under the supervision of a pharmacist. The Order provides a six-month transition period to come into compliance with requirements of the Order that relate to packaging and labelling, and advertising and promotion. In addition, the Order provides for the sale of an NRT that is not labelled or packaged in accordance with the Order if it was labelled prior to the coming into force of the Order, or, if the NRT was imported, it was imported and labelled in accordance with the Natural Health Products Regulations prior to the coming into force of the Order.

Chile	30/08/2024	G/TBT/N/CHL/700	Propuesta de Modificación del Decreto N°231 de 2000, del Ministerio de Transportes y Telecomunicaciones, Subsecretaría de Transportes (Draft amendment to Decree No. 231 of 2000 of the Ministry of Transport and Telecomunicaciones, Under-Secretariat for Transport) (5 pages, in Spanish)	It has been deemed necessary to amend Ministry of Transport and Telecommunications Decree No. 231 of 2000 establishing an obligation for riders and passengers of certain vehicles to wear a helmet, in order to: 1. Update the regulations (eliminating the Japanese regulation and updating the European regulation to "Regulation No. 22 - Rev. 5 - 06 series of amendment"); 2. Remove the reference to lot numbers; 3. Stipulate that accreditation must be based on documentation in compliance with the regulations in force at the time of application; 4. Lay down an obligation to submit factory plans, when these are not included in the background information to be presented; 5. Require the submission of a test report and factory background information alongside the international certification, when accreditation is based on the United Nations Regulation; G/TBT/N/CHL/700 - 2 - 6. Establish minimum requirements for the content of the instruction manual and provide for the publication of the manual on the website of the Ministry of Transport and Telecommunications; 7. Set out an obligation to certify the service life of the helmet by means of a document issued by the helmet manufacturer; 8. Require re-accreditation in cases where accreditation was granted five or more years previously. Chinese Taipei	12/08/2024	G/TBT/N/TPKM/546	Proposal for Legal Inspection Requirements for Power Conversion System	To achieve net-zero carbon emissions by 2050, it is expected that renewable energy power generation equipment and energy storage systems will gradually be installed not only at outdoor sites but also in indoor households and factories. Considering that the Power Conversion System (PCS) is a critical component of energy storage systems, the BSMI proposes to include PCS in the mandatory inspection scope to ensure consumer safety. Two alternative conformity assessment procedures are made available for the choice of applicants, i.e. Registration of Product Certification (RPC) or Type-Approved Batch Inspection (TABI).	Static converters (HS code(s): 850440)	850440 - Static converters	Protection of human health or safety (TBT)	11/10/2024	Regular notification
Chinese Taipei	09/08/2024	G/TBT/N/TPKM/545	Draft Regulations Governing Labelling for Recycling Categories and Other Matters of Compliance for Mobile Phone Manufacturers and Importers	Because of Mobile phones' small size, high price, and the large amount of personal information stored within, consumers often keep them at home after replacing them or fail to recycle them due to concerns about personal data leakage. Considering that mobile phones contain over seventy types of elements, including precious and rare metals, establishing proper recycling channels for them will facilitate the recycling and reuse of scarce resources. The Resource Recycling Act aims to promote the sustainable use of resources by effectively directing discarded resources into reuse and recycling channels, thus achieving the goal of transition towards a circular economy. When consumers replace mobile phones, they will have circulation services available to them provided by mobile phone enterprises, which should increase reuse of the devices. When mobile phones are no longer usable, their constituents can be recycled and used as raw materials for manufacturing. Under the authorization of Article 11, Paragraph 1, Subparagraphs 3 and 4, and Paragraph 2 of the Resource Recycling Act, the Draft Regulations Governing Labelling for Recycling Categories and Other Matters of Compliance for Mobile Phone Manufacturers and Importers (referred to hereinafter as the Regulations) have been formulated. They require mobile phone manufacturers and importers to label mobile phones indicating recycling categories and methods as well as to cooperate with efforts to recycle waste mobile phones, thus facilitating recycling and reuse of renewable resources. Key points of the Regulations are as follows: Definitions (Item I of the draft regulations) Scope of applicable enterprises (Item II of the draft regulations) Matters of compliance for mobile phone	Mobile Phone		Protection of the environment (TBT)	08/10/2024	Regular notification

Nepal	05/08/2024	G/TBT/N/NPL/10	Technical Regulation for PP woven laminated sacks for packaging of 50 kg cement: (NS 591 and NS 592).	This technical regulation prescribes that 50 kg of cement shall be packed in pp laminated sacks as per NS 591 or NS 592 for the production, storage, transportation, sales and distribution	Sacks. Bags (ICS code(s): 55.080)	55.080 - Sacks. Bags	Protection of human health or safety (TBT); Protection of the environment (TBT)		Regular notification

New Zealand	28/08/2024	G/TBT/N/NZL/139	Smokefree Environments and Regulated Products Amendment Bill (No 2)	<p>The Bill prescribes certain characteristics for vaping products manufactured, sold, supplied or distributed in New Zealand. The Bill does this by amending the Smokefree Environments and Regulated Products Act 1990 to introduce a prohibition on the manufacture, sale, supply, and distribution of 'disposable vaping products'. 'Disposable vaping products' are defined by reference to certain product characteristics, as:</p> <p>disposable vaping product means a vaping product that is not designed or intended to be reused, and includes—</p> <p>A) a vaping device that—</p> <p>(i) is not designed to be refilled by the user with a vaping substance; or (ii) is not designed to be recharged; or (iii) both subparagraphs (i) and (ii) describe; and B) a container that— (i) is pre-filled with a vaping substance; and (ii) is designed to be fitted into a vaping device; and (iii) is not designed to be refilled by the user with a vaping substance</p>	Disposable vaping products	2404 - Products containing tobacco, reconstituted tobacco, nicotine, or tobacco or nicotine substitutes, intended for inhalation without combustion; other nicotine containing products intended for the intake of nicotine into the human body	65.160 - Tobacco, tobacco products and related equipment	Other (TBT)	27/10/2024	Regular notification
New Zealand	27/08/2024	G/TBT/N/NZL/138	Call for submissions, Application A1260 – 2-Methyloxolane as a processing aid; Supporting Document 1 Risk and technical assessment report, Application A1260 – 2-Methyloxolane as a processing aid;	<p>FSANZ has assessed an application to amend the Australia New Zealand Food Standards Code (the Code) to permit use of 2-methyloxolane (2-MeOx) as an extraction solvent processing aid. 2-MeOx can be used to extract and separate oils and proteins from plant-based products, including oilseeds. It can also be used to extract components such as flavours, fragrances and colours, again from plant-based sources. FSANZ concluded the extraction solvent achieves its technological purpose. An identity and purity specification is to be inserted into Schedule 3 of the Code (which reflects the specifications detailed in Commission Directive (EU) 2023/175 dated 26 January 2023), to ensure the product meets the appropriate requirements so that the presence of certain impurities is minimised. FSANZ proposes to set maximum permitted levels (MPL) for residual 2-MeOx in foods: 3 mg/kg for infant formula products; 5 mg/kg in foods for infants and formulated supplementary foods for young children; and 20 mg/kg for other foods. No public health and safety concerns were identified from 2-MeOx as an extraction solvent at the proposed MPLs.</p>	Foods sold in New Zealand (both imported and domestically produced)		67.020 - Processes in the food industry	Other (TBT)	24/10/2024	Regular notification

New Zealand	19/08/2024	G/TBT/N/NZL/137	Approval report, Application A1247 D-allulose as a novel food; Supporting Document 1 Risk and technical assessment Application A1247 – D-allulose as a novel food.	FSANZ has assessed an application to amend the Australia New Zealand Food Standards Code to permit the sale of D-allulose from enzymatic conversion of fructose by D-psicose 3-epimerase contained in <i>Microbacterium foliorum</i> as a novel food in Australia and New Zealand. The aspects of this application that are relevant to the TBT Committee are to amend the Code to: permit D-allulose in certain foods to maximum permitted levels. For details, refer to Attachment 1 in the Approval Report (refer to the link provided in 11 below); include an energy factor of 2 kJ/g for D-allulose for nutrition information labelling purposes; require the label of a food containing D-allulose to carry an advisory statement about the risk of a laxative effect from high intakes of some food classes; and permit foods containing D-allulose to make nutrition content claims about sugars including no added sugar(s), provided existing claim conditions are met.	Foods containing D-allulose sold in New Zealand (both imported and domestically produced)	67.180 - Sugar. Sugar products. Starch	Other (TBT)	18/10/2024	Regular notification	
Nicaragua	23/08/2024	G/TBT/N/NIC/179	NTON 04001 Eficiencia energética. Acondicionadores de aire. Procedimiento para la demostración de la conformidad (Nicaraguan Mandatory Technical Standard (NTON) No. 04001: Energy efficiency. Air conditioners. Conformity demonstration procedure) (19 pages, in Spanish)	The notified Nicaraguan Mandatory Technical Standard establishes the conformity demonstration procedure for products regulated by NTON/Central American Technical Regulation (RTCA) No. 23.01.78:20: Electrical products. Inverter split-type, free air discharge, non-ducted air conditioners with variable refrigerant flow. Energy efficiency specifications. The Standard applies to natural or legal persons who are involved in the importation and marketing of inverter split-type, free air discharge, non-ducted air conditioners with variable refrigerant flow, powered by electricity, with nominal cooling capacities of up to 19,050 W (65,000 BTU), which operate by mechanical compression and include an air-cooling evaporator coil, a frequency compressor with variable refrigerant flow and an air-cooled condensing coil. Note: This procedure is an instrument that offers guidelines for compliance with NTON/RTCA No. 23.01.78:20: Electrical products. Inverter split-type, free air discharge, non-ducted air conditioners with variable refrigerant flow. Energy efficiency specifications; and NTON/RTCA No. 23.01.80:21: Electrical products. Peru	28/08/2024	G/TBT/N/PER/163	Proyecto de reglamento del Decreto Legislativo N° 1570, Decreto Legislativo que aprueba la Ley de Gestión integral de sustancias químicas (Draft Regulations implementing Legislative Decree No. 1570 approving the Law on the Comprehensive Management of Chemical Substances) (417 pages, in Spanish)	The notified draft Regulations implementing Legislative Decree No. 1570 approving the Law on the Comprehensive Management of Chemical Substances seek to protect human health and the environment through the adoption of mechanisms to reduce risks associated with the handling of chemical substances throughout their life cycle. The Law is being operationalized through the establishment of nine sections, 15 chapters, 72 articles, five final supplementary provisions, three transitional supplementary provisions and one annex. The draft Regulations establish mechanisms to implement four instruments for the management of chemical substances, namely: 1. Mandatory implementation of the GHS; 2. Implementation of the National Registry of Chemical Substances (RENASQ), which is managed by MINAM and linked to the National Environmental Information System (SINIA) with a view to producing a national inventory of chemical substances imported into and manufactured in the country; 3. Application of specific measures to reduce and manage risks to health and/or the environment associated with substances that, according to their hazard classification, are carcinogenic, mutagenic, reprotoxic or environmentally hazardous; and 4. Submission of health and environmental risk assessments in order to gather more information on the effects associated with exposure to chemical substances of particular interest and those for which there is insufficient information to ensure their proper management. Saudi Arabia, Kingdom of	21/08/2024	4	G/TBT/N/SAU/1167/Add.1	AIR CONDITIONERS - MINIMUM ENERGY PERFORMANCE, LABELLING AND TESTING REQUIREMENTS FOR LOW-CAPACITY WINDOW TYPE AND SINGLE-SPLIT	This standard is an update to the original SASO2663:2021 and shall be a replacement once it is approved. The following is the scope of the standard: This standard specifies the Minimum Energy Performance Standard (MEPS) and the energy labelling requirements for single-package of window type, single split-system non-ducted air conditioners using air-cooled condensers, single split-system ducted air-conditioners using air-cooled condensers, and heat pumps using air-cooled condensers or using electric resistance for residential, commercial and industrial sectors as applicable in accordance with SASO standards. The standard covers units with capacities up to and including 65,000 Btu/h (19.05 kW). The standard applies to units designed to operate at frequency of 60 Hz with the following voltages: AC single phase circuits of 220 V or 230 V, DC single phase up to 400V, Designed for dual voltage (including DC) up to 400V, Voltage range including above values, and three phase circuits of 380 V or 400 V Note: For any additional requirements such as safety, please refer to SASO related standards. The following units are excluded from the scope of this standard: a) Units covered by SASO 2874 "LARGE CAPACITY AIR CONDITIONERS PERFORMANCE REQUIREMENTS AND METHODS OF TESTING" standard. b) Evaporative coolers. c) Mobile (windowless) and portable units with exhaust air duct. d) Individual assemblies not constituting a complete refrigeration system such as condensing units for separate use. e) Models that have been granted exemption by SASO due to specific design for applications such as air-conditioners that are not intended for human comfort. Singapore	16/08/2024	G/TBT/N/SGP/72	Environmental Protection and Management Act (Amendment of Second Schedule) Order 2024	Singapore's National Environment Agency (NEA) is proposing to regulate formaldehyde in paints as a hazardous substance under the Environmental Protection and Management Act. Once the regulations take effect: The import, manufacture, and/or sale of interior paints containing equal to or more than 0.01% weight in weight of formaldehyde will be prohibited in Singapore, unless such interior paints are imported or manufactured for export or re-export purposes. In such cases, companies will be required to apply for a Hazardous Substances (HS) licence from NEA. The import, manufacture, and/or sale of paints for outdoor or industrial use, containing equal to or more than 0.01% weight in weight of formaldehyde will be required to comply with the relevant labelling requirements. The labelling requirements would not apply to paints which are imported or manufactured for export or re-export purposes. Accordingly, importers and manufacturers of interior paints would have to submit test reports to NEA, upon request, substantiating that the measured total in-can formaldehyde content in each interior paint product is less than 0.01% weight in weight. Such test reports would have to be prepared by accredited laboratories, such as those accredited by signatories to the International Laboratory Accreditation Cooperation Mutual Recognition Arrangement (ILAC MRA).	HS Heading Description 32081020 Anti-fouling or anti-corrosive paints for ships' hulls based on polyesters in non-aqueous medium 32081090 Other paints based on polyesters in non-aqueous medium & solutions 32082040 Anti-fouling or anti-corrosive paints of acrylic or vinyl polymers in non-aqueous medium for ship hull 32082090 Other paints & varnishes in non-aqueous medium & solutions based on acrylic or vinyl polymers 32089030 Anti-fouling or anti-corrosive paints for ships' hulls based on other polymers in non-aqueous medium 32089090 Other paints in non-aqueous medium & solutions based on other polymers 32091050 Anti-fouling or anti-corrosive paints of acrylic or vinyl polymers in aqueous medium for ships hulls 32091090 Other paints & varnishes of acrylic or vinyl polymers in aqueous medium 32099000 Other paints & varnishes of synthetic or chemically modified natural polymers in aqueous medium 32100091 Anti-fouling or anti-corrosive paints for ships hulls 32100099 Other paints & varnishes	321000 - Paints and varnishes, incl. enamels, lacquers and distempers (excl. those based on synthetic polymers or chemically modified natural polymers that are dispersed or dissolved in a medium); prepared water pigments of a kind used for finishing leather; 320990 - Paints and varnishes, incl. enamels and lacquers, based on synthetic or chemically modified natural polymers, dispersed or dissolved in an aqueous medium (excl. those based on acrylic or vinyl polymers); 320910 - Paints and varnishes, incl. enamels and lacquers, based on acrylic or vinyl polymers, dispersed or dissolved in an aqueous medium; 320890 - Paints and varnishes based, incl. enamels and lacquers, on synthetic polymers or chemically modified natural polymers, dispersed or dissolved in a non-aqueous medium, and solutions of products of headings 3901 to 3913 in volatile organic solvents, containing > 50% solvent by weight (excl. those based on polyesters and acrylic or vinyl polymers and solutions of collodion); 320820 - Paints and varnishes, incl. enamels and lacquers, based on acrylic or vinyl polymers, dispersed or dissolved in a non-aqueous medium; solutions based on acrylic or vinyl polymers in volatile organic solvents, containing > 50% solvent by weight; 320810 - Paints and varnishes, incl. enamels and lacquers, based on polyesters, dispersed or dissolved in a non-aqueous medium; solutions based on polyesters in volatile organic solvents, containing > 50% solvent by weight	87.040 - Paints and varnishes; 87.060 - Paint ingredients	Protection of human health or safety (TBT)	15/10/2024	Regular notification

components and are supplied by the manufacturer of the original machinery, related product or partly completed machinery;

(b) specific equipment for use in fairgrounds or amusement parks;

c) machinery and related products specially designed for use within or used in a nuclear installation and whose conformity with this Regulation may undermine the nuclear safety of that installation;

ç) weapons, including firearms;

d) means of transport by air, on water and on rail networks except for machinery mounted on those means of transport;

e) aeronautical products, parts and equipment that fall within the scope of related EU Regulation and the definition of machinery under this Regulation, insofar as the mentioned EU Regulation covers the relevant essential health and safety requirements set out in this Regulation;

f) motor vehicles and their trailers, as well as systems, components, separate technical units, parts and equipment designed and constructed for such vehicles, which fall within the scope of Regulation (EU) 2018/858 published on Official Gazette dated 19/4/2020

and numbered 31104, except for machinery mounted on those vehicles;

g) two- or three-wheel vehicles and quadricycles, as well as systems, components, separate technical units, parts and equipment designed and constructed for such vehicles, that fall within the scope of Regulation (EU) No 168/2013 published on Official Gazette dated 22/8/2015 and numbered 29453, except for machinery mounted on those vehicles;

ğ) agricultural and forestry tractors, as well as systems, components, separate technical units, parts and equipment designed and constructed for such tractors, that fall within the scope of Regulation (EU) No 167/2013 published on Official Gazette dated 14/8/2014 and numbered 29088, except for machinery mounted on those tractors;

h) motor vehicles exclusively intended for competition;

i) seagoing vessels and mobile offshore units and machinery installed on board such vessels or units;

i) machinery or related products specially designed and constructed for military or police purposes;

j) machinery or related products specially designed and constructed for

research purposes
for temporary use in
laboratories;

k) mine winding
gear;

l) machinery or
related products
intended to move
performers during
artistic
performances;

m) the following
electrical and
electronic products,
insofar as they fall
within the scope of
Directive
2014/35/EU
published on Official
Gazette dated
2/10/2016 and
numbered 29845 or
of Directive
2014/53/EU
published on Official
Gazette dated
5/11/2020 and
numbered 31295:

1) household
appliances intended
for domestic use
which are not
electrically operated
furniture;

2) audio and video
equipment;

3) information
technology
equipment;

4) ordinary office
machinery, except
additive printing
machinery for
producing three-
dimensional
products;

5) low-voltage
switchgear and
control gear;

6) electric motors;

n) the following
high-voltage
electrical products:

1) switchgear and
control gear;

2) transformers.

Ukraine	30/08/2024	G/TBT/N/UKR/306	Draft Order of the Ministry of Agrarian Policy "On Approval of the List of Categories of Feed Materials that May Be Indicated Instead of Certain Feed Materials in the Labeling of Feedingstuffs for Pet Animals"	The draft Order provides for the approval of the List of categories of feed materials that may be indicated instead of certain feed materials when labeling pet food. It also establishes that feed that met the requirements of the feed legislation in force prior to the entry into force of this Order, but does not meet the requirements of this Order, may be produced, placed on the market and remain in circulation until the expiration of the minimum shelf life, but not longer than three years from the date of entry into force of this Order. The draft Order aims to implement the provisions of Commission Directive 82/475/EEC of 23 June 1982 laying down the categories of ingredients which may be used for the purposes of labelling compound feedingstuffs for pet animals. The draft Order is also notified under the SPS Agreement.	Feed materials, feeding stuffs for pet animals (ICS code(s): 65.120; 67.040; 67.060; 67.080; 67.100; 67.120; 67.180; 67.200)	65.120 - Animal feeding stuffs; 67.040 - Food products in general; 67.060 - Cereals, pulses and derived products; 67.080 - Fruits. United States of America	29/08/2024	4	G/TBT/N/USA/1622/R ev.1	Fuels Regulatory Streamlining Amendments	Proposed rule - This action proposes revisions, updates, and corrections to EPA's streamlined fuel quality regulations. This action does not propose to change the stringency of the existing fuel quality standards. If anyone contacts EPA requesting a public hearing by 4 September 2024, EPA will hold a virtual public hearing on 12 September 2024. The hearing will begin at 9:00 a.m. Eastern Daylight Time (EDT) and end when all parties who wish to speak have had an opportunity to do so. All hearing attendees (including even those who do not intend to provide testimony) should register for the virtual public hearing by 4 September 2024. Information on the status of the hearing and how to register can be found at https://www.epa.gov/diesel-fuel-standards/fuels-regulatory-streamlining . Refer to the SUPPLEMENTARY INFORMATION section of the full-text for additional information on the public hearing. United States of America	26/08/2024	G/TBT/N/USA/2140	Modernization of Passenger Information Requirements Relating to "No Smoking" Sign Illumination	Direct final rule; request for comments - The Federal Aviation Administration (FAA) is amending its regulations to allow aircraft to operate either with "No Smoking" signs continuously illuminated or with "No Smoking" signs a crewmember can turn on and off. Currently, crewmembers must be able to manually turn aircraft "No Smoking" signs on and off. However, the current regulations were drafted when the Department of Transportation (DOT) permitted smoking at times on commercial flights. These amendments bring FAA regulations into alignment with current practice for aircraft manufacturing and operations.	Aircraft no smoking signs; Public information symbols. Signs. Plates. United States of America	23/08/2024	4 G/TBT/N/USA/1666/Add.1	Federal Motor Vehicle Safety Standards; Occupant Crash Protection	<p>This final rule amends Federal Motor Vehicle Safety Standard (FMVSS) No. 208, "Occupant crash protection," updating the child restraint systems (CRSs) listed in the standard. NHTSA uses the CRSs to test the performance of advanced air bag suppression and low risk deployment systems in either suppressing or deploying the air bag in a low-risk manner in the presence of a CRS. The amendments will ensure that the CRSs used by NHTSA to test advanced air bags are representative of the current CRS market and will make it easier for vehicle manufacturers and test laboratories to acquire CRSs for testing purposes. Effective date: 21 October 2024. Petition for reconsideration: If you wish to petition for reconsideration of this rule, your petition must be received by 7 October 2024. Compliance date: This final rule adopts a phase-in of the revised appendix. The phase-in begins on 1 September 2025, when forty percent of a manufacturer's applicable light vehicles must comply with the revised appendix. By 1 September 2026, all applicable light vehicles must comply with the revised appendix. We are also allowing optional early compliance.⁸⁹ Federal Register (FR) 67869, Title 49 Code of Federal Regulations (CFR) Parts 571 and 585</p>	Occupant crash protection, air bags	03.120 - Quality; 03.120 - Quality; 19.060 - Mechanical testing; 19.060 - Mechanical testing; 43.040.80 - Crash protection and restraint systems; 43.040.80 - Crash protection and restraint systems	Protection of human health or safety (TBT)	Addendum to Regular Notification

United States of America	23/08/2024	4 G/TBT/N/USA/2069/Add.1	Use of Supplemental Restraint Systems	<p>This rule prohibits civil aircraft operations conducted with supplemental restraint systems (SRS) unless operators meet certain requirements for ensuring passenger and crewmember safety during all phases of the operation. The FAA expects these requirements to increase the safety of individuals on board civil aircraft operations conducted with SRS. This rule addresses recommendations from the National Transportation Safety Board and the Department of Transportation Office of Inspector General. Additionally, this rule will codify, with updates, an Emergency Order of Prohibition currently in effect addressing safety concerns regarding the use of supplemental restraints. The rule applies to all civil aircraft operations conducted with use of SRS. The rule does not apply to parachute operations, rotorcraft external-load operations, or public aircraft operations. Effective 21 October 2024. 89 Federal Register (FR) 67834, Title 14 Code of Federal Regulations (CFR) Parts 119.1135, and 136. https://www.govinfo.gov/content/pkg/FR-2024-08-22/html/2024-18545.htm https://www.govinfo.gov/content/pkg/FR-2024-08-22/pdf/2024-18545.pdf This final rule and the proposed rule notified as G/TBT/N/USA/2069 are identified by Docket Number FAA-2023-2250. United States of America	21/08/2024	G/TBT/N/USA/2138	Significant New Use Rules on Certain Chemical Substances (24-1.5e)	Proposed rule - EPA is proposing significant new use rules (SNURs) under the Toxic Substances Control Act (TSCA) for chemical substances that were the subject of premanufacture notices (PMNs) and a Microbial Commercial Activity Notice (MCAN) and are also subject to a TSCA Order. The SNURs require persons who intend to manufacture (defined by statute to include import) or process any of these chemical substances for an activity that is proposed as a significant new use by this rule to notify EPA at least 90 days before commencing that activity. The required notification initiates EPA's evaluation of the conditions of use for that chemical substance. In addition, the manufacture or processing for the significant new use may not commence until EPA has conducted a review of the required notification, made an appropriate determination regarding that notification, and taken such actions as required by that determination. United States of America 13/08/2024 4 G/TBT/N/USA/2041/Add.5 Cybersecurity Labeling for Internet of Things

In this document, the Federal Communications Commission (Commission or FCC) announces that the Office of Management and Budget (OMB) has approved, for a period of three years, an information collection associated with rules establishing a voluntary cybersecurity labeling program for wireless consumer Internet of Things, or IoT, products in the Report and Order and Further Notice of Proposed Rulemaking (IoT Order). This document is consistent with the IoT Order, which stated that the Commission would publish a document in the Federal Register announcing the effective date of those rules. The compliance date for 47 CFR 8.208, 8.209, 8.212, 8.214, 8.215, 8.217, 8.218, 8.219, 8.220, 8.221, and 8.222, added on 30 July 2024, at 89 FR 61242 (notified as G/TBT/N/USA/2041/Add.4), and effective 29 August 2024, is 9 September 2024.⁸⁹ Federal Register (FR) 65224, Title 47 Code of Federal Regulations (CFR) Part 8

United States of America	13/08/2024	4	G/TBT/N/USA/1954/Rev.1/Add.1	Phasedown of Hydrofluorocarbons: Restrictions on the Use of HFCs Under the AIM Act in Variable Refrigerant Flow Air Conditioning Subsector; Reopening the Comment Period	On 26 June 2024, the Environmental Protection Agency (EPA) published a proposed rule (notified as G/TBT/N/USA/1954/Rev.1) titled, Phasedown of Hydrofluorocarbons: Restrictions on the Use of Hydrofluorocarbons under the American Innovation and Manufacturing Act in Variable Refrigerant Flow Air Conditioning Subsector, to allow one additional year for the installation of certain residential and light commercial air conditioning and heat pump variable refrigerant flow systems. The proposed rule did not include notice that the Agency would hold a public hearing if one were requested. This notice reopens the comment period specifically to provide an opportunity to request a public hearing on this rulemaking if one is desired. The comment period for the proposed rule published on 26 June 2024, at 89 FR 53373, is reopened to allow for the opportunity to request a public hearing. To request a public hearing, please submit a comment per the instructions in the ADDRESSES section. If requested, EPA will hold a virtual public hearing on 19 August 2024. See SUPPLEMENTARY INFORMATION for information on requesting and registering for a public hearing. If no public hearing is requested, the comment period will close on 27 August 2024. If a public hearing is requested, the comment period will	New residential and light commercial air conditioning and heat pump variable refrigerant flow systems that are 65,000 British thermal units per hour or greater; Hydrofluorocarbons; Environmental protection (ICS code(s): 13.020); Production in the chemical industry (ICS code(s): 71.020); Products of the chemical industry (ICS code(s): 71.100)	13.020 - Environmental protection; 71.020 - Production in the chemical industry; 71.080 - Organic chemicals; 71.080 - Organic chemicals; 71.100 - Products of the chemical industry; 13.020 - Environmental protection; 71.020 - Production in the chemical industry; 71.100 - Products of the chemical industry	Cost saving and productivity enhancement (TBT)	27/08/2024	Addendum to Regular Notification

This reopening of comment period and previous actions notified under the symbol G/TBT/N/USA/1954 are identified by Docket Number EPA-HQ-OAR-2021-0643. The Docket Folder is available from Regulations.gov at <https://www.regulations.gov/docket/EPA-HQ-OAR-2021-0643/document> and provides access to primary and supporting documents as well as comments received. Documents are also accessible from Regulations.gov by searching the Docket Number. WTO Members and their stakeholders are asked to submit comments to the USA TBT Enquiry Point by or before 4pm Eastern Time on 27 August 2024. If a public hearing is requested, the comment period will close on 26 September 2024. Comments received by the USA TBT Enquiry Point from WTO Members and their stakeholders will be shared with EPA and will also be submitted to the Docket on Regulations.gov if received within the comment period.

United States of America 13/08/2024 4 G/TBT/N/USA/2123/Add.1 Heavy-Duty Engine and Vehicle Omnibus Rule Update 2024

On 3 July 2024, Oregon DEQ Director Leah Feldon approved to delay implementation of the Heavy-Duty Low NOx Omnibus Rules for one year. The original Heavy-Duty Low NOx Omnibus Rules were adopted as part of the Clean Truck Rules by the Environmental Quality Commission in November 2021. They require conventionally fueled heavy-duty vehicle and engine manufacturers to meet tougher NOx and particulate matter emission standards, overhaul engine testing procedures and further extend engine warranties to ensure NOx and PM emissions are reduced over the lifetime of each new vehicle and engine. The Omnibus Rules will now go into effect with engine model year 2025. This action makes permanent a similar temporary rule the Environmental Quality Commission adopted on 16 November 2023. Also, the new amendments include adoption of recent California updates that provide additional compliance flexibility to engine manufacturers. They include allowing engine manufacturers to sell a larger volume of new federally certified internal combustion engines, referred to as

Heavy-duty engines; Environmental protection (ICS code(s): 13.020); Transport exhaust emissions (ICS code(s): 13.040.50)

13.020 - Environmental protection; 13.040.50 - Transport exhaust emissions; 13.020 - Environmental protection; 13.040.50 - Transport exhaust emissions

Protection of the environment (TBT)

Addendum to Regular Notification

“legacy engines” in the rule. As one of 17 states that has adopted California’s new on-highway vehicle and engine emission standards, Oregon DEQ must periodically and routinely align its rules to remain identical to California’s as required by the federal Clean Air Act. The amendments went into effect on 15 July 2024. As part of this announcement DEQ would like to share three additional items:

1. On a temporary basis, DEQ will not pursue enforcement or assess civil penalties for new school bus and solid waste collection vehicle engines that are sold or delivered for sale in Oregon in violation of: OAR 340-261-0040 Requirement to Meet California Vehicle Emission Standards OAR 340-261-0050 Incorporation by Reference, section (1), (2) and (3) OAR 340-261-0070 Recalls. For more details on DEQ’s use of enforcement discretion in this case, please see the recent enforcement discretion and no penalty justification memorandum and associated Frequently Asked Questions.
2. DEQ intends to propose new rule amendments to create additional exemptions under the Omnibus Rules for school bus and solid waste collection vehicle engines. During the recently completed rulemaking process, DEQ received comments regarding exempting certain vehicle sectors from the rules. The agency’s decision to consider proposing new exemptions was informed by the following: Critical services provided by certain specialty sectors; Current specialty vehicle market dynamics; Historically low sales volumes within specialty sectors; Engine manufacturer product plans and announcements; Current and future supply of Omnibus-certified, heavy-duty engines; Ability of specialty sector fleets to acquire legacy engines; Delayed adoption of engine manufacturer emission upgrades within specialty vehicle sectors. DEQ plans to propose these amendments by the first quarter of 2025.
3. Oregon DEQ will hold a virtual meeting to briefly describe the amendments, its temporary use of enforcement discretion/no penalty justification and its plan to propose new rule amendments. There will be an opportunity for the public to ask questions on any of the above. The meeting will be open to all members of the public. United States of America	13/08/2024	4 G/TBT/N/USA/998/Rev.1/Add.2	Energy Conservation Program: Energy Conservation Standards for Consumer Conventional Cooking Products	The U.S. Department of Energy ("DOE") published a direct final rule (notified as G/TBT/N/USA/998/Rev.1/Add.1) to establish new and amended energy conservation standards for consumer conventional cooking products in the Federal Register on 14 February 2024. DOE has determined that the comments received in response to the direct final rule do not provide a reasonable basis for withdrawing the direct final rule. Therefore, DOE provides this document confirming the effective and compliance dates of those standards. The effective date of 13 June 2024, for the direct final rule published on 14 February 2024 (89 FR 11434) is confirmed. Compliance with the standards established in the direct final rule will be required on 31 January 2028. 89 Federal Register (FR) 65520, Title 10 Code of Federal Regulations (CFR) Part 430	Conventional cooking products; Electric industrial or laboratory furnaces and ovens (excl. resistance heated, induction, dielectric and drying furnaces and ovens) (HS code(s): 851430); Environmental protection (ICS code(s): 13.020); Energy efficiency. United States of America	09/08/2024	G/TBT/N/USA/2135	1-Bromopropane (1-BP); Regulation Under the Toxic Substances Control Act (TSCA)	<p>Proposed rule - The Environmental Protection Agency (EPA or Agency) is proposing to address the unreasonable risk of injury to human health presented by 1-bromopropane (1-BP) (CASRN 106-94-5), also known as n-propyl bromide, under its conditions of use as documented in EPA's August 2020 Risk Evaluation for 1-BP and the December 2022 Revised Risk Determination for 1-BP prepared under the Toxic Substances Control Act >TSCA). 1-BP is a widely used solvent in a variety of occupational and consumer applications, including vapor degreasing, aerosol degreasing, adhesives and sealants, and in insulation. EPA determined that 1-BP presents an unreasonable risk of injury to health due to the significant adverse health effects associated with exposure to 1-BP, including neurotoxicity, developmental toxicity from acute and chronic inhalation exposures and dermal exposures, and cancer from chronic inhalation exposures. TSCA requires that EPA address by rule any unreasonable risk of injury to health or the environment identified in a TSCA risk evaluation and apply requirements to the extent necessary so the chemical no longer presents unreasonable risk. To address the identified unreasonable risk, EPA is proposing requirements to, among other things, prevent consumer access to the chemical, restrict the industrial and commercial use of the chemical while also allowing for a reasonable transition period where an industrial and commercial use of the chemical is being prohibited, and protect workers from the unreasonable risk of 1-BP while on the job.</p>	<p>1-Bromopropane (1-BP); Environmental protection (ICS code(s): 13.020); Air quality (ICS code(s): 13.040); Occupational safety. United States of America	07/08/2024	4 G/TBT/N/USA/1967/Add.1	Products Containing Perfluoroalkyl and Polyfluoroalkyl Substances (PFAS)	<p>Maine’s PFAS in Products Program’s governing statute was recently amended by Public Law 2023, c. 630, an Act to Support Manufacturers Whose Products Contain Perfluoroalkyl and Polyfluoroalkyl Substances (LD 1537, 131st Legislature, effective 9 August 2024). The recent legislation eliminates the general notification requirement that was previously scheduled to take effect 1 January 2025. This legislation also created several new sales prohibitions for products with intentionally added PFAS with varying effective dates, created some specific exemptions to the prohibitions, and established a new reporting program for those product categories that receive a Currently Unavoidable Use (CUU) determination from the Department. After this initial, informal outreach process (ending 30 August 2024), Maine’s Department of Environmental Protection (DEP) plans to proceed with rulemaking this fall. There will be an opportunity for public comment on a proposed draft rule during the rulemaking process. To keep informed about the rulemaking process, sign up for email notices or visit the Department’s rulemaking page at https://www.maine.gov/dep/rules/The Perfluoroalkyl and Polyfluoroalkyl Substances (PFAS) in Products Program has developed new concept draft language to implement the recently amended Title 38, section 1614. The concept draft language is now available for an informal outreach process until 30 August 2024. Interested WTO Members and their stakeholders are asked to submit comments to the USA TBT Enquiry Point by 4pm Eastern Time on 30 August 2024. Further information, including a chart listing “Sales Prohibitions on Products Containing Intentionally Added PFAS” and Product Categories Exempt from the Sales Prohibition, is accessible from DEP at https://www.maine.gov/dep/spills/topics/pfas/PFAS-products/index.html</p>	<p>Products containing perfluoroalkyl and polyfluoroalkyl substances; Environmental protection (ICS code(s): 13.020); Domestic safety (ICS code(s): 13.120); Packaging materials and accessories (ICS code(s): 55.040); Products of the textile industry (ICS code(s): 59.080); Materials and articles in contact with foodstuffs (ICS code(s): 67.250); Production in the chemical industry (ICS code(s): 71.020); Products of the chemical industry (ICS code(s): 71.100); Plastics (ICS code(s): 83.080); Furniture (ICS code(s): 97.140); Home textiles. United States of America	05/08/2024	4 G/TBT/N/USA/1802/Add.3/Corr.1	Standards of Performance for New, Reconstructed, and Modified Sources and Emissions Guidelines for Existing Sources: Oil and Natural Gas Sector Climate Review: Correction	<p>The U.S. Environmental Protection Agency (EPA) is taking interim final action on technical corrections to three regulations recently finalized within "Standards of Performance for New, Reconstructed, and Modified Sources and Emissions Guidelines for Existing Sources: Oil and Natural Gas Sector Climate Review," (hereafter "final rule"), published 8 March 2024 (notified as G/TBT/N/USA/1802/Add.3). Following publication of the final rule, the EPA identified, through its own internal reassessment of the regulatory text, as well as through communications with stakeholders and the Office of Federal Register, erroneous cross-references and typographical errors within the regulatory text. Through those same processes, the EPA also identified the need for some minor wording changes to clarify erroneous language (or, in some cases, erroneous omissions) in the regulatory text and/or to ensure that the regulatory text aligns with the descriptions of the relevant provisions in the final rule preamble and other parts of the regulation(s). The corrections being made in this action are minor and non-substantive in nature and are being made to address inadvertent errors in the final rule. The EPA is requesting comments on all aspects of this interim final rule.></p> <p>This rule is effective on 1 August 2024. United States of America	01/08/2024	G/TBT/N/USA/2134	Banned Hazardous Substances: Aerosol Duster Products Containing More Than 18 mg in Any Combination of HFC-152a and/or HFC-134a	Notice of proposed rulemaking - The U.S. Consumer Product Safety Commission (Commission or CPSC) is proposing to declare that any aerosol duster products that contain more than 18 mg in any combination of HFC-152a and/or HFC-134a are banned hazardous substances under the Federal Hazardous Substances Act (FHSA). For the ten-year period from 2012 to 2021, CPSC is aware of more than 1,000 deaths, and estimates 21,700 treated injuries involving the inhalation of aerosol duster products. The proposed rule addresses deaths and injuries associated with the propellants HFC- 152a and HFC-134a used in aerosol duster products. The Commission is providing an opportunity for interested parties to submit written comments on this notice of proposed rulemaking (NPR).	Aerosol duster products; Environmental protection (ICS code(s): 13.020); Production in the chemical industry (ICS code(s): 71.020); Halogenated hydrocarbons (ICS code(s): 71.080.20); Products of the chemical industry (ICS code(s): 71.100)	13.020 - Environmental protection; 71.020 - Production in the chemical industry; 71.080.20 - Halogenated hydrocarbons; 71.100 - Products of the chemical industry	Consumer information, labelling (TBT); Prevention of deceptive practices and consumer protection (TBT); Protection of human health or safety (TBT)	30/09/2024	Regular notification
