Argentina 09/09/2024 G/TBT/N/ARG/457 Reglamento Técnico que establece requisitos y características esenciales de calidad y seguridad que deberán cumplir los productos identificados como materiales para la construcción (Technical Regulation establishing requirements and key criteria for the quality and safety of products identified as construction materials) (19 pages, in Spanish)

The notified Resolution approves the technical regulation establishing requirements and key criteria for the quality and safety of products identified as construction materials to be marketed in the Argentine Republic. It reorganizes and updates the current regime for construction products, including by repealing regulation, with a view to updating quality standards and simplifying and streamlining the conformity assessment procedures required to market such products. The notified Resolution has five annexes: Annex I: Requirements and key criteria for the quality and safety of construction materials Annex II: Products and standards Annex III: Conformity assessment Annex IV: Implementation G/TBT/N/ARG/457 - 2 - Annex V: Repeals The notified Resolution will come into effect the day after its publication in the Official Journal. The requirements established in the notified Resolution with regard to the products listed in Annex II will come into force within the time frames set out in Annex IV.

Australia	27/09/2024	G/TBT/N/AUS/175	Proposed management standards for high-risk industrial chemicals:Proposed decision – HexachlorobenzeneProposed decision – Polychlorinated biphenylsProposed decision – Polychlorinated terphenyls	The Industrial Chemicals Environmental Management Standard (IChEMS) has been developed by all Australian governments to efficiently and effectively manage the risks of industrial chemicals to the environment, while providing consistent requirements for businesses across Australia. The IChEMS Register records standards for the environmental management of chemicals, including risk management measures for specific industrial uses. In turn, the Australian federal government and each state and territory government will enact legislation to implement the standards in their jurisdictions. The proposed decisions will assign the following chemicals, and mixtures and articles containing the chemicals, to Schedule 7 of the Register. This will prohibit their import, manufacture, use and export in Australia, with exceptions for unintentional trace contamination, research, environmentally sound disposal, and for articles in use prior to the standards' date of entry into force. Benzene, hexachloro- (Hexachlorobenzene) 1,1'-Biphenyl, chloro derivatives (Polychlorinated biphenyls, PCBs)Polychlorinated terphenyls (PCTs)	25/10/2024 Regular notification	
Australia	13/09/2024	G/TBT/N/AUS/155/Added.1	Final text - Proposal P1028 Infant Formula	Through Proposal P1028 — Infant formula, Food Standards Australia New Zealand (FSANZ) has revised and clarified Standards and Schedules relevant to infant formula regulation in the Australia New Zealand Food Standards Code (the Code). The primary objective of Proposal P1028 was to ensure that infant formula products continue to be safe and suitable, while taking account of the latest scientific evidence, market developments, changes in the international regulatory context (including revised Codex Standards ), and revised Australian and New Zealand policy guidance. Amendments have been made to a number of Standards and Schedules in the Code. Standard 2.9.1— Infant formula products contains the primary amendments to the Code. Consequential amendments have been made to an additional seven Standards and five Schedules including:Schedule 29—Special purpose foodsStandard 1.1.2—Definitions used throughout the CodeStandard 1.2.3—Information requirements – warning statements, advisory statements and declarationsStandard 1.3.1—Food additivesStandard 1.5.1—Novel foodsStandard 2.9.2—Food for infantsStandard 2.9.3—Formulated meal replacements and formulated supplementary foodsStandard 2.9.5—Food for special medical purposesSchedule 8—Food additive names and code numbers (for statement of ingredients)Schedule 15—Substances that may be used as food additivesSchedule 19—Maximum levels of contaminants and natural toxicantsSchedule 25—Permitted novel foods.The variations to the Code amend infant formula regulation. Relevant aspects include:re-drafting of Standard 2.9.1 and related provisions in Schedule 29 to reflect the differing requirements for subcategories of infant formula products (infant formula, follow-on formula and special medical purpose products for infants (SMPPi))revised nutrient composition valuesrevised permissions for food additives, contaminants and processing aidsaddition of a definition for SMPPi, and associated revisions on nutrient composition, restriction on sale and standalone labelling permissions reflective of Standard 2.9.5 - Foods for Special Medical Purpose (FSMP)amendments and new provisions regarding safety-related labelling (including directions for use and storage,	190110 - Food preparations for infant use, put up for retail sale, of flour, groats, meal, starch or malt extract, not containing cocoa or containing < 40% by weight of cocoa calculated on a totally defatted basis, n.e.s. and of milk, sour cream, whey, yogurt, kefir or similar goods of heading 0401 to 0404, not containing cocoa or containing < 5% by weight of cocoa calculated on a totally defatted basis, n.e.s.; 190110 - Food preparations for infant use, put up for retail sale, of flour, groats, meal, starch or malt extract, not containing cocoa or containing < 40% by weight of cocoa calculated on a totally defatted basis, n.e.s. and of milk, sour cream,	Addendum to Regular Notification

warning statements and age-related statements) and provision of information (including nutrition information, stage labelling and a prohibition of proxy advertising) amendments to clarify the requirements for novel foods when added to infant formula products. There is a five year transition period, inclusive of stock-in-trade.

Ecuador 10/09/2024 G/TBT/N/ECU/546

Proyecto "Normativa  
Técnica Sanitaria  
sustitutiva para la  
vigilancia y control de la  
publicidad y  
G/TBT/N/ECU/546 - 2 -  
promoción de  
medicamentos en general,  
productos naturales  
procesados de uso  
medicinal, productos o  
medicamentos  
homeopáticos y  
dispositivos médicos"  
(Draft Substitute Sanitary  
Technical Regulation on  
the monitoring and control  
of the advertising and  
promotion of medicines in  
general, processed natural  
products for medicinal use,  
homeopathic products or  
medicines and medical  
devices) (21 page(s), in  
Spanish)

The aim of the draft Substitute Sanitary Technical Regulation on the monitoring and control of the advertising and promotion of medicines in general, processed natural products for medicinal use, homeopathic products or medicines and medical devices is to regulate, control and monitor the advertising and promotion of medicines in general, processed natural products for medicinal use, homeopathic products or medicines and medical devices, in accordance with the provisions of the Organic Law on Health, with a view to promoting and providing information on the rational use and proper handling of the above-mentioned products. Only products with a sanitary registration certificate classifying them as over-the-counter products may be advertised. The provisions set out in the notified draft Regulation are applicable and mandatory throughout the national territory for natural and legal persons, whether national or foreign, that are engaged in or disseminate advertising and/or promotion activities in establishments and through mass media; it concerns the products that are mentioned above and that have undergone the sanitary registration or notification in effect in the country.

Korea, Republic of 19/09/2024 G/TBT/N/KOR/1232 Proposed amendments to the "Enforcement Rule of the Safety and Support of the Advanced Biopharmaceutical Products"

The Ministry of Food and Drug Safety of the Republic of Korea intends to amend the Enforcement Rule of the Safety and Support of the Advanced Biopharmaceutical Products to include the following:

vinegar or acetic acid (excl. whole or in pieces) 18/11/2024 Regular notification

- Establishment of fee standards for the application for approval of new drugs among advanced biopharmaceutical products
- Raising fees of customized technical documents review by the field of newly developed drugs in compliance with approval

Korea, Republic of 19/09/2024 G/TBT/N/KOR/1233 Proposed amendments to the "Enforcement Rule of the Medical Devices Act"

The Proposed amendments to the "Enforcement Rule of the Medical Devices Act" are as follows:

18/11/2024 Regular notification

1) Establishment of fees for newly developed medical device approval and/or preliminary review

- New fees for applications for manufacturing and/or import approval of newly developed medical devices and preliminary review of technical documents, etc.

2) Establishment of fee reduction provisions for newly developed medical devices

- Exemption of fees for manufacturing and/or import approval (including the review of technical documents) if a preliminary review application for a newly developed medical device is deemed compliant

- Establishment of a legal basis for reducing or exempting fees if a small and medium-sized enterprise applies for manufacturing approval (or preliminary review) of newly developed medical devices

3) Establishment of a legal basis for exemption from redundant submission of medical device quality managers' qualification proof documents

- Provision to prevent the repeated submission of qualification verification documents for quality managers in case of their changing employment, provided their qualifications have already been verified

Cutting lead levels in paints: proposed amendments to group standards.

In accordance with article 2.9.2 of the WTO, New Zealand notified the proposal to amend group standards that regulate paints and graphic materials in order to reduce the maximum allowable levels of lead in paint and ensure the protection of human health and the environment. The proposals have now been adopted and include the following changes, most coming into effect 1 March 2025: lead impurities in all paints covered by the Surface Coatings and Colourants Group Standards and Aerosols Group Standards must not exceed 90 ppm; anti-rust paints using the Corrosion Inhibitors Group Standards now must also meet the 90 ppm lead impurity limit; importers and manufacturers must have test results (or other evidence) showing compliance with the lead limit; paint used on toys and cots must meet the EN 71-3:2019+A1:2021 standard, and any paint that does not meet these requirements must include on the label the precautionary statement "Not suitable for use on children's toys or cots"; all art materials marketed to children are only covered by the Graphic Materials Group Standard; art materials using the Graphic Materials Group Standard must meet the lower element migration levels in the EN 71-3:2019+A1:2021 standard; lead element notification requirement from the Graphic Materials Group Standard is no longer necessary (effective 19 September 2024). Any non-compliant stock must be disposed of by 1 September 2025.

Norway	04/09/2024	G/TBT/N/NOR/25	Draft regulations concerning the manufacture, placing on the market and import of fertilising products of organic origin and certain inorganic fertilising products (Fertilising Products Regulations)	The Norwegian Food Safety Authority has proposed a new regulation concerning the production and marketing of fertilising products. It provides rules for safe fertiliser production and is adapted to changes that have taken place in the market regarding increased interest in the use of waste and by-products in the production of fertilisers. The proposal introduces the following amendments: SPS-measures The requirements for hygienisation and stabilisation are clarified, and the indicator organism thermotolerant coliform bacteria is changed to E. coli. A limit value has been added for arsenic. The table of raw materials and raw material categories that can be used in fertiliser production has been updated (appendix 1) and a new system with applications for the use of other types of raw materials that are not listed in the table is being introduced. TBT-measures The registration obligation changes from a requirement for product registration to a requirement for business registration. Labelling requirements that earlier were included in a standard are now in the regulation. Both organic and inorganic biostimulants are covered by the new regulation, and they are more clearly distinguished from pesticides. There is a new paragraph concerning products traded under the agreement of mutual recognition in the EEA.	31 - FERTILISERS	03/11/2024	Regular notification

Switzerland 17/09/2024 G/TBT/N/CHE/289

Revision of the Ordinance of the Swiss Federal Office of Communications on telecommunications installations (OOIT) Revision, creation and withdrawal of determined radio interface regulations (RIR).

Annex 2: Several interface regulations (RIR) are amended in line with the latest technological developments and European harmonization. Following radio interface regulations are withdrawn (784.101.21/ ...): RIR0501-05: GSM repeaters in the frequency range 880-960 MHz RIR0501-06: GSM repeaters in the frequency range 1710-1880 MHz RIR0501-09: Repeaters for Mobile/Fixed Communications Networks in the frequency range 1920-2170 MHz RIR0501-13: MFCN (Mobile/Fixed Communications Networks) in the frequency range 2500-2690 MHz. RIR1002-03: Euroloop communications in the frequency range 516 – 8516 kHz. RIR1003-05: Asset tracking and tracing in the frequency band 169.6125-169.8125 MHz. RIR0506-01: Wide area paging in the frequency range 169.4125 - 169.7875 MHz. Following radio interface regulations are amended (784.101.21/ ...): RIR0501-10: Mobile Networking Solutions in the frequency range 1805-2170 MHz) aligned with ECC/DEC/(06)07. RIR0501-23: MFCN (Mobile/Fixed Communications Networks) in the frequency range 3500-3800 MHz) adaptation of the licensing regime of user equipment (license-exempt). RIR0501-27: MFCN (Mobile/Fixed Communications Networks) in the frequency range 925-960 adjusted due to new repeater in RIR0501-34. RIR0501-28: MFCN (Mobile/Fixed Communications Networks) in the frequency range 758-2690 MHz) adjusted due to new repeater in RIR0501-34. RIR0501-34: MFCN (Mobile/Fixed Communications Networks) in the frequency range 758-2690 MHz): compiles all relevant MFCN repeater RIRs. RIR0506-02: Wide area paging in the frequency range 146.800 – 174.000 MHz) aligned with the ECC/DEC/(05)02. RIR0507-02: PMR analogue communications in the frequency range 146.800 – 174.000 MHz) aligned with the ECC/DEC/(05)02. RIR0507-12: PMR (digital): communications in the frequency range 146.800 – 174.000 MHz) aligned with the ECC/DEC/(05)02. RIR0805-01: Feeder links above 1 GHz in the frequency range 1 – 3000 GHz) extended with the frequency band extensions according to ECC/DEC/(21)01 and ERC/DEC/(00)02. RIR1003-03: Meter reading in the frequency range 169.400-169.475 MHz aligned to ECC/DEC/(05)02 and ECC/REC 70-3, Annex 2. RIR1008-10: Non-specific Short-Range Devices in the frequency range 869.700-870.000 MHz) aligned with ECC/REC 70-3, Annex 1. RIR1008-18: Non-specific Short-Range Devices in the frequency range 433.050-434.790 MHz) aligned with ECC/REC 70-3, Annex 1. RIR1008-19: Non-specific Short-Range Devices in the frequency range 434.040-434.790 MHz) aligned with ECC/REC 70-3, Annex 1. RIR1008-32: Non-specific Short-Range Devices in the frequency range 169.400-169.475 MHz) aligned with ECC/DEC/(05)02 and ECC/REC 70-3, Annex 1. RIR1008-33: Non-specific Short-Range Devices in the frequency range 169.400-169.4875 MHz) the RIR aligned with ECC/REC 70-3, Annex 1. RIR1008-34: Non-specific Short-Range Devices in the frequency range 169.4875-169.5875 MHz) aligned with ECC/REC 70-3, Annex 1. RIR1023-02: Ultra-wide band applications in the frequency range 1600-10600 MHz) aligned with ECC/DEC/(06)04. RIR1023-03: Ultra-wide band applications in the frequency range 1600-10600 MHz): aligned with ECC DEC/(06)04. Following radio interface regulations are created (784.101.21/ ...): RIR0501-25: MFCN (Mobile/Fixed Communications Networks) in the 2570 - 2620 MHz frequency band RIR1023-07: Ultra-wide band applications in the frequency range 1600-10600 MHz) extended with new specific UWB applications in the frequency range 6-8.5 GHz, according to ECC/DEC/(06)04. RIR1004-21: High-Definition Ground Based Synthetic Aperture Radar Communications in the frequency range 76-77 GHz according to ECC/DEC/(21)02. Annex 4:

16/11/2024 Regular notification

Until now, manufacturers were required to submit test reports from an accredited laboratory with their application for approval. As it has proved difficult for manufacturers to find a suitable accredited laboratory, it will now be possible for the manufacturer, who has the necessary knowledge and equipment, to carry out the tests and draw up the reports himself. Annex 5: The technical and administrative requirements for special electronics (PTA 5.2 / PTS 5.3 / PTA 5.4) must be completed to take account of the possibility given to the manufacturer to draw up test reports himself. In addition, certain adaptations have been made necessary by the arrival of programmable broadband disturbances based on software-defined radios. Annex 7: The version of the standard for the USB-C connector has been updated to its newest version (EN IEC 62680-1-2: 2022 and EN IEC 62680-1-3: 2021)

Tanzania	23/09/2024	G/TBT/N/BDI/501, G/TBT/N/KEN/1668, G/TBT/N/RWA/1050, G/TBT/N/TZA/1167, G/TBT/N/UGA/2004	DEAS 1219: 2023 Sizes and fittings of footwear and footwear lasts – Specification	This Working Draft East African Standard specifies the sizes and fittings for footwear and footwear lasts.		22/11/2024	Regular notification
Tanzania	20/09/2024	G/TBT/N/TZA/706/Add .1	AFDC 7(1261) CD3, Crystallized ginger — Specification, First Edition	Tanzania would like to inform WTO Members that the Draft Tanzania Standard; AFDC 7(1261) CD3, Crystallized ginger — Specification, First Edition, notified in G/TBT/N/TZA/706 was adopted by the Ministry of Industry and Trade on 22 March 2024 as TZS 3478:2024 Crystallized ginger — Specification, First Edition.	2006 - Vegetables, fruit, nuts, fruit-peel and other edible parts of plants, preserved by sugar "drained, glacé or crystallised"; 2006 - Vegetables, fruit, nuts, fruit-peel and other edible parts of plants, preserved by sugar "drained,		Addendum to Regular Notification

Tanzania	20/09/2024	G/TBT/N/TZA/709/Add .1	AFDC 21 (393) CD3,Orange fleshed sweet potato flour — Specification, First Edition	Tanzania would like to inform WTO Members that the Draft Tanzania Standard; AFDC 21 (393) CD3,Orange fleshed sweet potato flour — Specification, First Edition, notified in G/TBT/N/TZA/709 was adopted by the Ministry of Industry and Trade on 22 March 2024 as TZS 3394::2024 Orange fleshed sweet potato flour — Specification, First Edition	071420 - Sweet potatoes, fresh, chilled, frozen or dried, whether or not sliced or in the form of pellets; 071420 - Sweet potatoes, fresh, chilled, frozen or dried, whether or not sliced or in the form of pellets glacé or crystallised"	Addendum to Regular Notification
Tanzania	20/09/2024	G/TBT/N/TZA/740/Add .1	AFDC 19 (1127) DTZS,Raw Walnut Kernels – Specification	Tanzania would like to inform WTO Members that the Draft Tanzania Standard; AFDC 19 (1127) DTZS,Raw Walnut Kernels – Specification, notified in G/TBT/N/TZA/740 was adopted by the Ministry of Industry and Trade on 22 March 2024 as TZS 3422: 2024 Raw Walnut Kernels – Specification,.	080232 - Fresh or dried walnuts, shelled; 080232 - Fresh or dried walnuts, shelled	22/03/2024 Addendum to Regular Notification
Tanzania	20/09/2024	G/TBT/N/TZA/751/Add .1	AFDC 17 (822) DTZS, Icing sugar — Specification	Tanzania would like to inform WTO Members that the Draft Tanzania Standard; AFDC 17 (822) DTZS, Icing sugar — Specification , notified in G/TBT/N/TZA/75was adopted by the Ministry of Industry and Trade on 22 March 2024 as TZS, 2083:2024 Icing sugar — Specification .	170290 - Sugars in solid form, incl. invert sugar and chemically pure maltose, and sugar and sugar syrup blends containing in the dry state 50% by weight of fructose, not flavoured or coloured, artificial honey, whether or not mixed with natural honey and caramel (excl. cane or beet sugar, chemically pure sucrose, lactose, maple sugar, glucose, fructose, and syrups thereof); 170290 - Sugars in solid form, incl. invert sugar and chemically pure maltose, and sugar and sugar syrup blends containing in the dry state 50% by weight of fructose, not flavoured or coloured, artificial honey, whether or not mixed with natural honey	Addendum to Regular Notification

Tanzania	20/09/2024	G/TBT/N/TZA/737/Add .1	AFDC 19 (1105) DTZS,Sunflower seeds for oil extraction – Specification	Tanzania would like to inform WTO Members that the Draft Tanzania Standard; AFDC 19 (1105) DTZS,Sunflower seeds for oil extraction – Specification, notified in G/TBT/N/TZA/737 was adopted by the Ministry of Industry and Trade on 22 March 2024 as TZS 1578:2024 ,Sunflower seeds for oil extraction – Specification	and caramel (excl. cane or beet sugar, chemically pure sucrose, lactose, maple sugar, glucose, fructose, and syrups thereof) 120890 - Flours and meal of oil seeds or oleaginous fruit (excl. soya and mustard); 120890 - Flours and meal of oil seeds or oleaginous fruit (excl. soya and mustard)	Addendum to Regular Notification
Tanzania	20/09/2024	G/TBT/N/TZA/752/Add .1	AFDC 17 (1254) DTZS,Brown sugar — Specification	Tanzania would like to inform WTO Members that the Draft Tanzania Standard; AFDC 17 (1254) DTZS,Brown sugar — Specification, notified in G/TBT/N/TZA/752 was adopted by the Ministry of Industry and Trade on 22 March 2024 as TZS 831:2024 Brown sugar — Specification,	170113 - Raw cane sugar, in solid form, not containing added flavouring or colouring matter, obtained without centrifugation, with sucrose content 69° to 93°, containing only natural anhydral microcrystals (see subheading note 2.); 170113 - Raw cane sugar, in solid form, not containing added flavouring or colouring matter, obtained without centrifugation, with sucrose content 69° to 93°, containing only natural anhydral microcrystals (see subheading note 2.)	Addendum to Regular Notification
Tanzania	20/09/2024	G/TBT/N/TZA/703/Add .1	AFDC 7(886) CD3, Garlic paste – Specification, First Edition	Tanzania would like to inform WTO Members that the Draft Tanzania Standard; AFDC 7(886) CD3, Garlic paste – Specification, First Edition, notified in G/TBT/N/TZA/703 was adopted by the Ministry of Industry and Trade on 22 March 2024 as TZS 2685:2024 Garlic paste – Specification, First Edition	210390 - Preparations for sauces and prepared sauces; mixed condiments and seasonings (excl. soya sauce, tomato ketchup and other tomato sauces, mustard, and mustard flour and meal); 210390 - Preparations for sauces and prepared sauces;	Addendum to Regular Notification

Tanzania	20/09/2024	G/TBT/N/TZA/738/Add .1	AFDC 19(1106) DTZS, Mustard Seeds for oil extraction – Specification	Tanzania would like to inform WTO Members that the Draft Tanzania Standard; AFDC 19(1106) DTZS, Mustard Seeds for oil extraction – Specification, notified in G/TBT/N/TZA/738 was adopted by the Ministry of Industry and Trade on 22 March 2024 as TZS 3421:2024 Mustard Seeds for oil extraction – Specification.	mixed condiments and seasonings (excl. soya sauce, tomato ketchup and other tomato sauces, mustard, and mustard flour and meal) 120750 - Mustard seeds, whether or not broken; 120750 - Mustard seeds, whether or not broken	Addendum to Regular Notification
Tanzania	20/09/2024	G/TBT/N/TZA/710/Add .1	AFDC 21 (1178) CD3, Cassava sorghum composite flour — Specification, First Edition	Tanzania would like to inform WTO Members that the Draft Tanzania Standard; AFDC 21 (1178) CD3, Cassava sorghum composite flour — Specification, First Edition, notified in G/TBT/N/TZA/710 was adopted by the Ministry of Industry and Trade on 22 March 2024 as TZS 3393:2024, Cassava sorghum composite flour — Specification, First Edition	071410 - Fresh, chilled, frozen or dried roots and tubers of manioc "cassava", whether or not sliced or in the form of pellets; 071410 - Fresh, chilled, frozen or dried roots and tubers of manioc "cassava", whether or not sliced or in the form of pellets	Addendum to Regular Notification
Tanzania	20/09/2024	G/TBT/N/TZA/702/Add .1	AFDC 7(884) CD3, Ginger garlic paste – Specification, First Edition	Tanzania would like to inform WTO Members that the Draft Tanzania Standard; AFDC 7(884) CD3 Ginger garlic paste – Specification, First Edition, notified in G/TBT/N/TZA/702 was adopted by the Ministry of Industry and Trade on 22 March 2024 as TZS 3391:2024 Ginger garlic paste – Specification, First Edition	210390 - Preparations for sauces and prepared sauces; mixed condiments and seasonings (excl. soya sauce, tomato ketchup and other tomato sauces, mustard, and mustard flour and meal); 210390 - Preparations for sauces and prepared sauces; mixed condiments and seasonings (excl. soya sauce, tomato ketchup and other tomato sauces, mustard, and mustard flour and meal)	Addendum to Regular Notification

Tanzania	20/09/2024	G/TBT/N/TZA/708/Add .1	AFDC 21 (392) CD3, Orange fleshed sweet potato, sorghum and soya composite flour— Specification, First Edition	Tanzania would like to inform WTO Members that the Draft Tanzania Standard; Orange fleshed sweet potato, sorghum and soya composite flour—Specification, First Edition, notified in G/TBT/N/TZA/708 was adopted by the Ministry of Industry and Trade on 22 March 2024 as TZS 3395:2024 Orange fleshed sweet potato, sorghum and soya composite flour—Specification, First Edition	071420 - Sweet potatoes, fresh, chilled, frozen or dried, whether or not sliced or in the form of pellets; 071420 - Sweet potatoes, fresh, chilled, frozen or dried, whether or not sliced or in the form of pellets 0409 - Natural honey; 0409 - Natural honey	Addendum to Regular Notification
Tanzania	20/09/2024	G/TBT/N/TZA/761/Add .1	AFDC 17 (823) DTZS, Spiced honey - Specification	Tanzania would like to inform WTO Members that the Draft Tanzania Standard; AFDC 17 (823) DTZS, Spiced honey - Specification, notified in G/TBT/N/TZA/761 was adopted by the Ministry of Industry and Trade on 22 March 2024 as TZS 3471:2024 Spiced honey - Specification	0409 - Natural honey; 0409 - Natural honey	Addendum to Regular Notification
Tanzania	19/09/2024	G/TBT/N/TZA/736/Add .1	TBS/AFDC 19(1093) DTZS, Pumpkin Seeds Flour – Specification	Tanzania would like to inform WTO Members that the Draft Tanzania Standard; TBS/AFDC 19(1093) DTZS, Pumpkin Seeds Flour – Specification, notified in G/TBT/N/TZA/736 was adopted by the Ministry of Industry and Trade on 22 March 2024 as TZS 3419:2024 Pumpkin Seeds Flour – Specification.	1206 - Sunflower seeds, whether or not broken; 1206 - Sunflower seeds, whether or not broken	Addendum to Regular Notification
Tanzania	18/09/2024	G/TBT/N/BDI/499, G/TBT/N/KEN/1666, G/TBT/N/RWA/1048, G/TBT/N/TZA/1165, G/TBT/N/UGA/2002	DEAS 1220:2024, Steel tubes for non-pressure purposes - Steel tubes for rolls for conveyor belt idlers - Specification, First Edition	This Draft East African Standard specifies the requirements, sampling and test methods of welded steel tubes for use in the manufacture of rolls for conveyor belt idlers.	730630 - Tubes, pipes and hollow profiles, welded, of circular cross-section, of iron or non-alloy steel (excl. products having internal and external circular cross-sections and an external diameter of > 406,4 mm, or line pipe of a kind used for oil or gas pipelines or casing and tubing of a kind used in drilling for oil or gas)	17/11/2024 Regular notification
Tanzania	18/09/2024	G/TBT/N/BDI/498, G/TBT/N/KEN/1665, G/TBT/N/RWA/1047, G/TBT/N/TZA/1164, G/TBT/N/UGA/2001	DEAS 134:2024, Cold formed structural steel sections - Specification, Fourth Edition.	This Draft East African Standard specifies the requirements and sectional properties of cold formed structural steel sections of thickness of 1 mm to 8 mm for use in structural and general engineering applications.	722870 - Angles, shapes and sections of alloy steel other than stainless, n.e.s.	17/11/2024 Regular notification
Tanzania	18/09/2024	G/TBT/N/BDI/497, G/TBT/N/KEN/1664, G/TBT/N/RWA/1046, G/TBT/N/TZA/1163, G/TBT/N/UGA/2000	DEAS 1221:2024, Steel tubes for non-pressure purposes - Stainless steel tubes for round, oval, square and rectangular section for furniture - Specification, First Edition.	This Draft East African Standard specifies the requirements, sampling and test methods for round, oval, square and rectangular section stainless steel for use to manufacture furniture.	730640 - Tubes, pipes and hollow profiles, welded, of circular cross-section, of stainless steel (excl. products having internal and external circular cross-sections and an external diameter of > 406,4 mm, and products of a kind used for oil or gas pipelines)	17/11/2024 Regular notification

Tanzania	02/09/2024	G/TBT/N/TZA/1161	DARS 1729:2024, Poly vinyl chloride (PVC) bottles for edible oils - Specification, First Edition.	This standard specifies the requirements and the methods of sampling and test of polyvinyl chloride (PVC) bottles for packing of edible oils.	or of a kind used in drilling for oil or gas)	390422 - Plasticised poly"vinyl chloride", in primary forms, mixed with other substances	01/11/2024	Regular notification
Tanzania	02/09/2024	G/TBT/N/TZA/1162	DARS 1721:2024 Recycled Polyethylene Terephthalate (rPET) Bottles for Food Contact-Specification, First Edition.	This draft African Standard specifies requirements, sampling and test methods for Recycled PET bottles, and recyclates (flakes and pellets) used for food contact applications.It does not apply to industrial rejected PET bottles and does not apply to production of resins for non-food grade consumer applications.		391590 - Waste, parings and scrap of plastics (excl. that of polymers of ethylene, styrene and vinyl chloride)	01/11/2024	Regular notification
Tanzania	02/09/2024	G/TBT/N/TZA/1160	DARS 1730: 2024, Polyethylene terephthalate (PET) bottles for edible oils - Specification, First Edition	This African Draft standard prescribes the requirements and the methods of sampling and testing for polyethylene terephthalate (PET) bottles edible oils.		3901 - Polymers of ethylene, in primary forms	01/11/2024	Regular notification
Thailand	30/09/2024	G/TBT/N/THA/693/Add.1	Ministerial Regulation Prescribing Industrial Products for Electrolytic Zinc-Coated Flat Steel to Conform to the Standard B.E. 2567 (2024)	This addendum is to inform that the Ministerial Regulation mandates electrolytic zinc-coated flat steel to conform to the Thai Industrial Standard TIS 2223-2565 (2022) and will enter into force on 12 March 2025.				Addendum to Regular Notification
Thailand	30/09/2024	G/TBT/N/THA/661/Add.1	Ministerial Regulation Prescribing Industrial Products for Hot-Dip Zinc-Coated Cold Reduced Flat Steel to Conform to the Standard B.E. 2567 (2024)	This addendum is to inform that the Ministerial Regulation mandates hot-dip zinc-coated cold reduced flat steel to conform to the Thai Industrial Standard TIS 50-2565 (2022) and will enter into force on 10 June 2025.				Addendum to Regular Notification
Thailand	30/09/2024	G/TBT/N/THA/657/Add.1	Ministerial Regulation Prescribing Industrial Products for Hot-Dip 55% Aluminium/Zinc-Coated Flat Steel to Conform to the Standard B.E. 2567 (2024)	This addendum is to inform that the Ministerial Regulation mandates hot-dip 55% aluminium/zinc-coated flat steel to conform to the Thai Industrial Standard TIS 2228-2565 (2022) and will enter into force on 10 June 2025.				Addendum to Regular Notification
Thailand	30/09/2024	G/TBT/N/THA/645/Add.1	Ministerial Regulation Prescribing Industrial Products for Quenched and Tempered Wire for Prestressed Concrete to Conform to the Standard B.E. 2567 (2024)	This addendum is to inform that the Ministerial Regulation mandates quenched and tempered wire for prestressed concrete to conform to the Thai Industrial Standard TIS 3286-2564 (2021) and will enter into force on 12 March 2025.				Addendum to Regular Notification
Thailand	30/09/2024	G/TBT/N/THA/700/Add.1	Ministerial Regulation Prescribing Industrial Products for Light Duty Positive Ignition Engined Vehicles to Conform to the Standard B.E. 2567 (2024)	This addendum is to inform that the Ministerial Regulation mandates light duty positive ignition engined vehicles to conform to the Thai Industrial Standard TIS 3017-2563 (2020) and will enter into force on 1 January 2025.				Addendum to Regular Notification
Türkiye	24/09/2024	G/TBT/N/TUR/147/Add.3	Regulation on the Procedures and Principles Regarding Production Types, Labelling and Supervision of Tobacco Products	The Regulation entered into force on the date of its publication.The tobacco products must comply with the provisions of this Regulations until 31/03/2025. And the tobacco products which are not comply with this Regulation can be found on the market until 31/12/2025		24 - TOBACCO AND MANUFACTURED TOBACCO SUBSTITUTES; 24 - TOBACCO AND MANUFACTURED TOBACCO SUBSTITUTES		Addendum to Regular Notification

Türkiye	23/09/2024	G/TBT/N/TUR/220	Communiqué (Communiqué no: 2024/...) Amending The Communiqué On The Mandatory Implementation Of Turkish Standards (Communiqué No: SGM 2022/40)	By this Communiqué, 5 standards will be added to 302 standards in Annex-1 of the "Communiqué on Turkish Standards for Products Subject to Compulsory Implementation (Communiqué No: SGM 2022/40)" published by the Ministry of Industry and Technology in the Official Gazette dated 11 May 2023 and numbered 32187 and the standards in updated list will be put into force as mandatory.		22/11/2024	Regular notification
Türkiye	16/09/2024	G/TBT/N/TUR/121/Add.2	The Communiqué on the Amendment of Turkish Food Codex Communiqué on Sugar	Turkish Food Codex Communiqué on Sugar was notified in G/TBT/N/TUR/121 and was amended with the notification G/TBT/N/TUR/121 /Add.1. Now, this Communiqué has been amended in content about the labelling requirements relating the notification of source which the sugar has obtained from.		12/11/2024	Addendum to Regular Notification
Uganda	26/09/2024	G/TBT/N/UGA/2014	DUS DARS 2051:2024, Design of facilities and rearing structures for insects for food and feed — Code of practice, First edition	This Draft Uganda Standards provides guidelines on the structures used for rearing insects for food and feed.	041010 - Insects, fit for human consumption	25/11/2024	Regular notification
Uganda	26/09/2024	G/TBT/N/BDI/510, G/TBT/N/KEN/1677, G/TBT/N/RWA/1059, G/TBT/N/TZA/1176, G/TBT/N/UGA/2013	DEAS 960:2024, Deodorants and antiperspirants — Specification, Second Edition.	This Draft East African Standard specifies the requirements, sampling and test methods for deodorants and antiperspirants.	330720 - Personal deodorants and antiperspirants	25/11/2024	Regular notification
Uganda	26/09/2024	G/TBT/N/BDI/509, G/TBT/N/KEN/1676, G/TBT/N/RWA/1058, G/TBT/N/TZA/1175, G/TBT/N/UGA/2012	DEAS 425-1:2023, Skin powders — Specification — Part 1: Body and face powder, Second Edition	This Draft East African Standard specifies the requirements, sampling and test methods for body and face powders which cover talcum powders, toilet powders, deodorant powders and dusting powders, for adult use only. This draft standard does not cover powders with therapeutic claims.	33 - ESSENTIAL OILS AND RESINOIDS; PERFUMERY, COSMETIC OR TOILET PREPARATIONS	25/11/2024	Regular notification
Uganda	23/09/2024	G/TBT/N/BDI/507, G/TBT/N/KEN/1674, G/TBT/N/RWA/1056, G/TBT/N/TZA/1173, G/TBT/N/UGA/2010	DEAS 898: 2024, Processing and handling of smoked fish, smoke-flavoured fish, smokedried fish and smoked fish products — Code of practice, Second EditionNote: This Draft East African Standard was also notified under SPS committee	This Draft East African standard provides guidelines for processing, handling and storing of smoked fish, smoke-flavoured fish, smoke-dried fish and smoked fish products intended for human consumption. This code of practice applies to all fish species.	03054 - - Smoked fish, including fillets, other than edible fish offal:	22/11/2024	Regular notification
Uganda	23/09/2024	G/TBT/N/BDI/500, G/TBT/N/KEN/1667, G/TBT/N/RWA/1049, G/TBT/N/TZA/1166, G/TBT/N/UGA/2003	DEAS 1216: 2023 Performance requirements of footwear accessories— Specification	This Draft East African Standard specifies the requirements, test methods and sampling for footwear accessories.		22/11/2024	Regular notification
Uganda	23/09/2024	G/TBT/N/BDI/503, G/TBT/N/KEN/1670, G/TBT/N/RWA/1052, G/TBT/N/TZA/1169, G/TBT/N/UGA/2006	DEAS 1215: 2023 Glossary of terms relating to footwear	This Draft East African Standard gives the glossary of terms relating to footwear.		22/11/2024	Regular notification
Uganda	23/09/2024	G/TBT/N/BDI/508, G/TBT/N/KEN/1675, G/TBT/N/RWA/1057, G/TBT/N/TZA/1174, G/TBT/N/UGA/2011	DEAS 1202: 2024, Handling, processing and distribution of fish — Code of practice — Retail, First EditionNote: This Draft East African Standard was also notified under SPS committee	This Draft East African Standard provides guidelines for handling, processing and distribution in retailing of fish and fish products intended for human consumption.	0305 - Fish, fit for human consumption, dried, salted or in brine; smoked fish, fit for human consumption, whether or not cooked before or during the smoking process;	22/11/2024	Regular notification

Uganda	23/09/2024	G/TBT/N/BDI/505, G/TBT/N/KEN/1672, G/TBT/N/RWA/1054, G/TBT/N/TZA/1171, G/TBT/N/UGA/2008	DEAS 1200: 2024, Canned finfish — Specification, First Edition Note: This Draft East African Standard was also notified under SPS committee	This Draft Standard specifies requirements, sampling and test methods for canned finfish packed in brine, oil and/or tomato sauce or other suitable packing media intended for human consumption.  It does not apply to speciality products where the canned finfish constitutes less than 50 % m/m, of the net contents of the can.	0304 - Fish fillets and other fish meat, whether or not minced, fresh, chilled or frozen; 0303 - Frozen fish (excl. fish fillets and other fish meat of heading 0304); 0302 - Fish, fresh or chilled (excl. fish fillets and other fish meat of heading 0304) 03057 - - Fish fins, heads, tails, maws and other edible fish offal:	22/11/2024	Regular notification
Uganda	23/09/2024	G/TBT/N/BDI/502, G/TBT/N/KEN/1669, G/TBT/N/RWA/1051, G/TBT/N/TZA/1168, G/TBT/N/UGA/2005	DEAS 1217: 2023 General purpose rubber gumboots – Specification	This Draft East African Standard specifies the requirements, test methods and sampling for general purpose rubber gumboots.		22/11/2024	Regular notification

Ukraine	20/09/2024	G/TBT/N/UKR/307	Law of Ukraine No. 3910 "On Amendments to the Law of Ukraine "On Medicinal Products" on Labelling of Medicinal Products" of 21 August 2024	The Law aligns the requirements of national legislation on the labelling of medicinal products with the provisions of Directive 2001/83/EC of the European Parliament and of the Council of 6 November 2001 on the Community code relating to medicinal products for human use. The Law stipulates that the packaging of medicinal products shall not contain any advertising information, as well as any information about other legal entities or individuals who are not the manufacturer or applicant (holder) of the registration certificate for the medicinal product. The Law also provides that wholesale and retail trade, and import of medicinal products that do not comply with the labelling requirements set out in this Law are not allowed. The established requirements do not apply to medicinal products imported into Ukraine with labelling and instructions for use/brief description of the medicinal product in the original language (a language other than the state language), based on the results of procurement conducted by a person authorized to carry out procurement in the healthcare sector, or procurement conducted with the involvement of a person authorized to carry out procurement in the healthcare sector, at the funds of local budgets, and/or based on the results of the procurement procedure conducted by a specialized procurement organization to fulfil the procurement agreement between the central executive body of Ukraine responsible for healthcare policy and the relevant specialized procurement organization. Additionally, this exemption covers medicinal products imported as humanitarian aid and unregistered medicinal products, import of which into Ukraine is permitted under conditions specified in Article 17 of the Law of Ukraine No. 123/96-BP "On Medicines" of 4 April 1996 (amended).	19/11/2024	Regular notification

Ukraine 16/09/2024

G/TBT/N/UKR/274/Rev.1

Draft Resolution of the Cabinet of Ministers of Ukraine "On Approval of the Procedure for State Registration of Hazardous Factors"

The draft Resolutions provides for the approval of the Procedure for state registration of hazardous factors, which defines the order for state registration of chemical and biological hazardous factors - chemicals and substances of biological origin, as well as those that are part of mixed products, produced and/or used in the territory of Ukraine or imported, and establishes the procedure for maintaining the State register of hazardous factors.

15/11/2024 Revision to Regular Notification

According to the draft Procedure all individual chemical and biological hazardous factors - chemicals and substances of biological origin, as well as those that are part of the product or mixed product, produced and/or used on the territory of Ukraine or imported are subject to state registration. A hazardous factor that is part of the product is subject to registration if it is intentionally released during the use. A hazardous factor that is part of a mixed product is subject to registration if the concentration of the hazardous factor that is part of the mixed product is 10 % or more. Additives formed in the process of production or use of substances are registered as individual substances. The state registration of a hazardous factor is carried out by the Ministry of Health of Ukraine on the basis of an application for state registration of a hazardous factor and the results of the examination of registration materials for such a factor conducted by the expert institution, such as the State enterprise "Committee on Hygienic Regulation of the Ministry of Health of Ukraine" (hereinafter referred to as the Committee). The application for state registration of a hazardous factor submitted by the manufacturer or importer shall contain the following:

- 1) full and abbreviated name of the applicant; 2) address of the applicant's location; 3) telephone number and e-mail address; 4) surname, full name, patronymic (if any) of the authorised person; 5) commercial name of the chemical substance or substance of biological origin; 6) chemical name (for a chemical substance) in accordance with the nomenclature of the International Union of Pure and Applied Chemistry (IUPAC) and other international classifiers; 7) registration number of the chemical compound of Chemical Abstracts Service (CAS) and/or the number of European Inventory of Existing Commercial Chemical Substances (EINECS); 8) the scope of application of the hazardous factor. If the production and/or import of a particular chemical and biological hazardous factor is planned by one or more producers and importers, a joint application for state registration of the hazardous factor is submitted. The application for state registration of a hazardous factor is submitted in electronic form through the electronic cabinet of the Register, if the relevant technical capability of submission to the Register is available. Until the technical capability is introduced, the application may be submitted in written or electronic form. The Committee examines the registration materials on a contractual basis between the Committee and the applicant within 30 calendar days and, based on the results of the examination, prepares an expert conclusion on the possibility of registering a hazardous factor or refusing to register it within 5 calendar days. Based on this conclusion, the Ministry of Health of Ukraine makes a decision within 15 calendar days on state registration of the hazardous factor or refusal of such registration. A hazardous factor is considered registered from the moment of a registration record is made in the State Register. The state registration of a hazardous factor is indefinite, except in cases specified in the Procedure for State Registration of Hazardous Factors. The State Register of Hazardous Factors is intended

to provide electronic services to implement the rights and obligations of applicants for the collection, accumulation and processing of data on hazardous factors registered in Ukraine, who have applied to the Ministry of Health of Ukraine for registration of the factor(s) in accordance with the established procedure. The hazard classification of chemicals and chemical products is based on the Globally Harmonized System of Classification and Labeling of Chemicals (GHS).

Ukraine	09/09/2024	G/TBT/N/UKR/288/Add.1	Draft Order of the Ministry of Environmental Protection and Natural Resources of Ukraine "On Approval of the Procedure for Labelling of Controlled Substances, Goods and Equipment"	Ukraine notifies the adoption of the Order of the Ministry of Environmental Protection and Natural Resources of Ukraine No 661 "On Approval of the Procedure for Labelling of Controlled Substances, Goods and Equipment" of 10 June 2024. The Order was registered in the Ministry of Justice of Ukraine on 07 August 2024 and published on 29 August 2024. The Order will enter into force on 1 March 2025.	2903 - Halogenated derivatives of hydrocarbons; 3827 - Mixtures containing halogenated derivatives of methane, ethane or propane, n.e.s.; 3910 - Silicones in primary forms.; 8414 - Air or vacuum pumps (excl. gas compound elevators and pneumatic elevators and conveyors); air or other gas compressors and fans; ventilating or recycling hoods incorporating a fan, whether or not fitted with filters; gas-tight biological safety cabinets, whether or not fitted with filters; parts thereof; 8415 - Air conditioning machines comprising a	Addendum to Regular Notification

motor-driven fan and elements for changing the temperature and humidity, incl. those machines in which the humidity cannot be separately regulated; parts thereof; 8419 - Machinery, plant or laboratory equipment whether or not electrically heated (excl. furnaces, ovens and other equipment of heading 8514), for the treatment of materials by a process involving a change of temperature such as heating, cooking, roasting, distilling, rectifying, sterilising, pasteurising, steaming, drying, evaporating, vaporising, condensing or cooling (excl. those used for domestic purposes); instantaneous or storage water heaters, non-electric; parts thereof; 8421 - Centrifuges, incl. centrifugal dryers (excl. those for isotope separation); filtering or purifying machinery and apparatus, for liquids or gases; parts thereof (excl. artificial kidneys); 8422 - Dishwashing machines; machinery for cleaning or drying bottles or other containers; machinery for filling, closing, sealing or labelling bottles,

cans, boxes, bags or other containers; machinery for capsuling bottles, jars, tubes and similar containers; other packing or wrapping machinery, incl. heat-shrink wrapping machinery; machinery for aerating beverages; parts thereof; 3824 - Prepared binders for foundry moulds or cores; chemical products and preparations for the chemical or allied industries, incl. mixtures of natural products, n.e.s.; 8424 - Mechanical appliances, whether or not hand-operated, for projecting, dispersing or spraying liquids or powders, n.e.s.; fire extinguishers, charged or not (excl. fire-extinguishing bombs and grenades); spray guns and similar appliances (excl. electric machines and apparatus for hot spraying of metals or sintered metal carbides of heading 8515); steam or sand blasting machines and similar jet projecting machines; parts thereof, n.e.s.; 8451 - Machinery (excl. of heading 8450) for washing, cleaning, wringing, drying, ironing, pressing incl. fusing presses,

bleaching, dyeing, dressing, finishing, coating or impregnating textile yarns, fabrics or made-up textile articles and for applying paste to the base fabric or other support used in the manufacture of floor coverings like linoleum; machines for reeling, unreeling, folding, cutting or pinking textile fabrics; parts thereof; 8456 - Machine tools for working any material by removal of material, by laser or other light or photon beam, ultrasonic, electro-discharge, electro-chemical, electron beam, ionic-beam or plasma arc processes; water-jet cutting machines (excl. cleaning apparatus operated by ultrasonic processes, soldering and welding machines, incl. those which can be used for cutting, and material testing machines); 8476 - Automatic goods-vending machines, e.g. postage stamp, cigarette, food or beverage machines, incl. money-changing machines; parts thereof; 8479 - Machines and mechanical appliances having individual functions, not specified or included elsewhere in this

chapter; parts thereof; 8509 - Electromechanical domestic appliances, with self-contained electric motor; parts thereof (excl. vacuum cleaners, dry and wet vacuum cleaners); 9027 - Instruments and apparatus for physical or chemical analysis, e.g. polarimeters, refractometers, spectrometers, gas or smoke analysis apparatus; instruments and apparatus for measuring or checking viscosity, porosity, expansion, surface tension or the like; instruments and apparatus for measuring or checking quantities of heat, sound or light, incl. exposure meters; microtomes; 9304 - Other arms (for example, spring, air or gas guns and pistols, truncheons), excluding those of heading 93.07.; 8438 - Machinery, not specified or included elsewhere in this chapter, for the industrial preparation or manufacture of food or drink (other than machinery for the extraction or preparation of animal or fixed vegetable fats or oils); parts thereof; 3820 - Anti-freezing preparations and prepared de-icing

fluids.; 8418 - Refrigerators, freezers and other refrigerating or freezing equipment, electric or other; heat pumps; parts thereof (excl. air conditioning machines of heading 8415); 3813 - Preparations and charges for fire-extinguishers; charged fire-extinguishing grenades.; 3004 - Medicaments consisting of mixed or unmixed products for therapeutic or prophylactic uses, put up in measured doses "incl. those for transdermal administration" or in forms or packings for retail sale (excl. goods of heading 3002, 3005 or 3006); 3204 - Synthetic organic colouring matter, whether or not chemically defined; preparations based on synthetic organic colouring matter of a kind used to dye fabrics or produce colorant preparations; synthetic organic products of a kind used as fluorescent brightening agents or as luminophores, whether or not chemically defined (excl. preparations of heading 3207, 3208, 3209, 3210, 3213 and 3215); 3814 - Organic composite solvents and thinners, not

elsewhere specified or included; prepared paint or varnish removers.; 3209 - Paints and varnishes, incl. enamels and lacquers, based on synthetic polymers or chemically modified natural polymers, dispersed or dissolved in an aqueous medium; 3214 - Glaziers' putty, grafting putty, resin cements, caulking compounds and other mastics; painters' fillings; non-refractory surfacing preparations for façades, indoor walls, floors, ceilings or the like; 3304 - Beauty or make-up preparations and preparations for the care of the skin, incl. sunscreen or suntan preparations (excl. medicaments); manicure or pedicure preparations; 3305 - Preparations for use on the hair; 3306 - Preparations for oral or dental hygiene, incl. denture fixative pastes and powders; yarn used to clean between the teeth "dental floss", in individual retail packages; 3208 - Paints and varnishes, incl. enamels and lacquers, based on synthetic polymers or chemically

modified natural polymers, dispersed or dissolved in a non-aqueous medium; solutions of products of headings 3901 to 3913 in volatile organic solvents, containing > 50% solvent by weight (excl. solutions of collodion); 3401 - Soap; organic surface-active products and preparations for use as soap, in the form of bars, cakes, moulded pieces or shapes, whether or not containing soap; organic surface-active products and preparations for washing the skin, in the form of liquid or cream and put up for retail sale, whether or not containing soap; paper, wadding, felt and nonwovens, impregnated, coated or covered with soap or detergent; 3402 - Organic surface-active agents (excl. soap); surface-active preparations, washing preparations, incl. auxiliary washing preparations, and cleaning preparations, whether or not containing soap (excl. those of heading 3401); 3403 - Lubricant preparations, incl. cutting-oil preparations, bolt or nut release preparations, anti-rust or anti-corrosion preparations and mould-release

preparations based on lubricants; textile lubricant preparations and preparations of a kind used for the oil or grease treatment of textile materials, leather, furskins or other materials (excl. preparations containing, as basic constituents,  $\geq 70\%$  petroleum oil or bituminous mineral oil by weight); 3405 - Shoe polish, furniture wax and floor waxes, polishes and creams for coachwork, glass or metal, scouring pastes and powders and similar preparations, whether or not in the form of paper, wadding, felt, nonwovens, sponge plastics, cellular plastics or cellular rubber, impregnated, coated or covered with such preparations (excl. artificial and prepared waxes of heading 3404); 3808 - Insecticides, rodenticides, fungicides, herbicides, anti-sprouting products and plant-growth regulators, disinfectants and similar products, put up for retail sale or as preparations or articles, e.g. sulphur-treated bands, wicks and candles, and fly-papers; 3809 - Finishing agents, dye carriers to accelerate the

dyeing or fixing of dyestuffs and other products and preparations such as dressings and mordants of a kind used in the textile, paper, leather or like industries, n.e.s.; 3812 - Prepared rubber accelerators; compound plasticisers for rubber or plastics, n.e.s.; anti-oxidising preparations and other compound stabilisers for rubber or plastics; 3307 - Shaving preparations, incl. pre-shave and aftershave products, personal deodorants, bath and shower preparations, depilatories and other perfumery, toilet or cosmetic preparations, n.e.s.; prepared room deodorisers, whether or not perfumed or having disinfectant properties; 8418 - Refrigerators, freezers and other refrigerating or freezing equipment, electric or other; heat pumps; parts thereof (excl. air conditioning machines of heading 8415); 3204 - Synthetic organic colouring matter, whether or not chemically defined; preparations based on synthetic organic colouring matter of a kind used to dye fabrics or produce colorant

preparations;  
synthetic organic  
products of a kind  
used as  
fluorescent  
brightening  
agents or as  
luminophores,  
whether or not  
chemically  
defined (excl.  
preparations of  
heading 3207,  
3208, 3209, 3210,  
3213 and 3215);  
3004 -  
Medicaments  
consisting of  
mixed or unmixed  
products for  
therapeutic or  
prophylactic uses,  
put up in  
measured doses  
"incl. those for  
transdermal  
administration"  
or in forms or  
packings for retail  
sale (excl. goods  
of heading 3002,  
3005 or 3006);  
3814 - Organic  
composite  
solvents and  
thinners, not  
elsewhere  
specified or  
included;  
prepared paint or  
varnish  
removers.; 3209 -  
Paints and  
varnishes, incl.  
enamels and  
lacquers, based  
on synthetic  
polymers or  
chemically  
modified natural  
polymers,  
dispersed or  
dissolved in an  
aqueous medium;  
3214 - Glaziers'  
putty, grafting  
putty, resin  
cements, caulking  
compounds and  
other mastics;  
painters' fillings;  
non-refractory  
surfacing  
preparations for  
façades, indoor  
walls, floors,  
ceilings or the  
like; 3304 -

Beauty or make-up preparations and preparations for the care of the skin, incl. sunscreen or suntan preparations (excl. medicaments); manicure or pedicure preparations; 3305 - Preparations for use on the hair; 3306 - Preparations for oral or dental hygiene, incl. denture fixative pastes and powders; yarn used to clean between the teeth "dental floss", in individual retail packages; 2903 - Halogenated derivatives of hydrocarbons; 3401 - Soap; organic surface-active products and preparations for use as soap, in the form of bars, cakes, moulded pieces or shapes, whether or not containing soap; organic surface-active products and preparations for washing the skin, in the form of liquid or cream and put up for retail sale, whether or not containing soap; paper, wadding, felt and nonwovens, impregnated, coated or covered with soap or detergent; 3402 - Organic surface-active agents (excl. soap); surface-active preparations, washing preparations, incl. auxiliary washing

preparations, and cleaning preparations, whether or not containing soap (excl. those of heading 3401); 3403 - Lubricant preparations, incl. cutting-oil preparations, bolt or nut release preparations, anti-rust or anti-corrosion preparations and mould-release preparations based on lubricants; textile lubricant preparations and preparations of a kind used for the oil or grease treatment of textile materials, leather, furskins or other materials (excl. preparations containing, as basic constituents,  $\geq$  70% petroleum oil or bituminous mineral oil by weight); 3405 - Shoe polish, furniture wax and floor waxes, polishes and creams for coachwork, glass or metal, scouring pastes and powders and similar preparations, whether or not in the form of paper, wadding, felt, nonwovens, sponge plastics, cellular plastics or cellular rubber, impregnated, coated or covered with such preparations (excl. artificial and prepared waxes of heading 3404); 3808 - Insecticides, rodenticides, fungicides, herbicides, anti-

sprouting products and plant-growth regulators, disinfectants and similar products, put up for retail sale or as preparations or articles, e.g. sulphur-treated bands, wicks and candles, and fly-papers; 3809 - Finishing agents, dye carriers to accelerate the dyeing or fixing of dyestuffs and other products and preparations such as dressings and mordants of a kind used in the textile, paper, leather or like industries, n.e.s.; 3813 - Preparations and charges for fire-extinguishers; charged fire-extinguishing grenades.; 3208 - Paints and varnishes, incl. enamels and lacquers, based on synthetic polymers or chemically modified natural polymers, dispersed or dissolved in a non-aqueous medium; solutions of products of headings 3901 to 3913 in volatile organic solvents, containing > 50% solvent by weight (excl. solutions of collodion); 3827 - Mixtures containing halogenated derivatives of methane, ethane or propane, n.e.s.; 3910 - Silicones in primary forms.; 3820 - Anti-freezing preparations and

prepared de-icing fluids.; 8438 - Machinery, not specified or included elsewhere in this chapter, for the industrial preparation or manufacture of food or drink (other than machinery for the extraction or preparation of animal or fixed vegetable fats or oils); parts thereof; 9304 - Other arms (for example, spring, air or gas guns and pistols, truncheons), excluding those of heading 93.07.; 9027 - Instruments and apparatus for physical or chemical analysis, e.g. polarimeters, refractometers, spectrometers, gas or smoke analysis apparatus; instruments and apparatus for measuring or checking viscosity, porosity, expansion, surface tension or the like; instruments and apparatus for measuring or checking quantities of heat, sound or light, incl. exposure meters; microtomes; 8509 - Electromechanical domestic appliances, with self-contained electric motor; parts thereof (excl. vacuum cleaners, dry and wet vacuum cleaners); 8479 - Machines and mechanical

appliances having individual functions, not specified or included elsewhere in this chapter; parts thereof; 8476 - Automatic goods-vending machines, e.g. postage stamp, cigarette, food or beverage machines, incl. money-changing machines; parts thereof; 3812 - Prepared rubber accelerators; compound plasticisers for rubber or plastics, n.e.s.; anti-oxidising preparations and other compound stabilisers for rubber or plastics; 8456 - Machine tools for working any material by removal of material, by laser or other light or photon beam, ultrasonic, electro-discharge, electro-chemical, electron beam, ionic-beam or plasma arc processes; water-jet cutting machines (excl. cleaning apparatus operated by ultrasonic processes, soldering and welding machines, incl. those which can be used for cutting, and material testing machines); 8424 - Mechanical appliances, whether or not hand-operated, for projecting, dispersing or spraying liquids or powders, n.e.s.; fire extinguishers,

charged or not  
(excl. fire-  
extinguishing  
bombs and  
grenades); spray  
guns and similar  
appliances (excl.  
electric machines  
and apparatus for  
hot spraying of  
metals or  
sintered metal  
carbides of  
heading 8515);  
steam or sand  
blasting machines  
and similar jet  
projecting  
machines; parts  
thereof, n.e.s.;  
3824 - Prepared  
binders for  
foundry moulds  
or cores;  
chemical  
products and  
preparations for  
the chemical or  
allied industries,  
incl. mixtures of  
natural products,  
n.e.s.; 8422 -  
Dishwashing  
machines;  
machinery for  
cleaning or drying  
bottles or other  
containers;  
machinery for  
filling, closing,  
sealing or  
labelling bottles,  
cans, boxes, bags  
or other  
containers;  
machinery for  
capsuling bottles,  
jars, tubes and  
similar  
containers; other  
packing or  
wrapping  
machinery, incl.  
heat-shrink  
wrapping  
machinery;  
machinery for  
aerating  
beverages; parts  
thereof; 8421 -  
Centrifuges, incl.  
centrifugal dryers  
(excl. those for  
isotope  
separation);  
filtering or  
purifying  
machinery and

apparatus, for liquids or gases; parts thereof (excl. artificial kidneys); 8419 - Machinery, plant or laboratory equipment whether or not electrically heated (excl. furnaces, ovens and other equipment of heading 8514), for the treatment of materials by a process involving a change of temperature such as heating, cooking, roasting, distilling, rectifying, sterilising, pasteurising, steaming, drying, evaporating, vaporising, condensing or cooling (excl. those used for domestic purposes); instantaneous or storage water heaters, non-electric; parts thereof; 8415 - Air conditioning machines comprising a motor-driven fan and elements for changing the temperature and humidity, incl. those machines in which the humidity cannot be separately regulated; parts thereof; 8414 - Air or vacuum pumps (excl. gas compound elevators and pneumatic elevators and conveyors); air or other gas compressors and fans; ventilating or recycling hoods incorporating a fan, whether or not fitted with

filters; gas-tight biological safety cabinets, whether or not fitted with filters; parts thereof; 8451 - Machinery (excl. of heading 8450) for washing, cleaning, wringing, drying, ironing, pressing incl. fusing presses, bleaching, dyeing, dressing, finishing, coating or impregnating textile yarns, fabrics or made-up textile articles and for applying paste to the base fabric or other support used in the manufacture of floor coverings like linoleum; machines for reeling, unreeling, folding, cutting or pinking textile fabrics; parts thereof; 3307 - Shaving preparations, incl. pre-shave and aftershave products, personal deodorants, bath and shower preparations, depilatories and other perfumery, toilet or cosmetic preparations, n.e.s.; prepared room deodorisers, whether or not perfumed or having disinfectant properties 040320 - Yogurt, whether or not flavoured or containing added sugar or other sweetening matter, fruit, nuts, cocoa, chocolate, spices, coffee, plants, cereals or bakers' wares

Significant New Use Rules on Certain Chemical Substances (21-3.F)

Proposed rule - EPA is proposing significant new use rules (SNURs) under the Toxic Substances Control Act (TSCA) for chemical substances that were the subject of premanufacture notices (PMNs). The chemical substances received "not likely to present an unreasonable risk" determinations pursuant to TSCA. The SNURs require persons who intend to manufacture (defined by statute to include import) or process any of these chemical substances for an activity that is proposed as a significant new use by this rulemaking to notify EPA at least 90 days before commencing that activity. The required notification initiates EPA's evaluation of the conditions of use for that chemical substance. In addition, the manufacture or processing for the significant new use may not commence until EPA has conducted a review of the required notification, made an appropriate determination regarding that notification, and taken such actions as required by that determination.

Chemical Data Reporting; Extension of the 2024 Submission Period

The Environmental Protection Agency (EPA or Agency) is amending the Toxic Substances Control Act (TSCA) Chemical Data Reporting (CDR) regulations to extend the submission deadline for 2024 reports to 22 November 2024. This extension is for the 2024 submission period only. The TSCA CDR regulations require manufacturers (including importers) of certain chemical substances included on the TSCA Chemical Substance Inventory (TSCA Inventory) to report data on the manufacturing, processing, and use of the chemical substances. This final rule is effective 27 September 2024. 89 Federal Register (FR) 79150, Title 40 Code of Federal Regulations (CFR) Part 711

Notice of Request for Information (RFI) on Medium- and Heavy-Duty Electric Charging Technologies and Infrastructure Needs

Notice; request for information - The FHWA, along with the Joint Office of Energy and Transportation (Joint Office), invites public comment on this request for information (RFI) regarding the Medium- and Heavy-Duty Electric Charging Technologies and Infrastructure Needs. This RFI seeks input in four areas to support medium and heavy-duty (MHD) battery electric vehicles (EV) (DOT vehicle classes 4 through 8) including: unique EV charger and station needs; vehicle charging patterns; MHD EV charger technology and standardization; and workforce, supply chain, and manufacturing to support charging of MHD battery EVs. The goal is to inform appropriate future Federal Government activities to support the development and deployment of EV chargers to support the anticipated needs of MHD EV original equipment manufacturers, fleet operators, drivers, charging station operators, and electric utilities. Comments should also address how to balance advances in technology with the need to expeditiously build out the national EV charging infrastructure, including support for MHD segments.>

Commercial Harbor Craft Regulation

On 12 September 2024, CARB's Executive Officer signed Executive Order DE-24-003, establishing the requirements for safety systems (also known as bypass or override systems) for future Executive Orders issued to manufacturers of CARB-Verified Diesel Particulate Filters (DPFs) for DPFs that include a safety system for Commercial Harbor Craft (CHC). The CHC Regulation establishes performance standards for main propulsion and auxiliary engines on regulated in-use vessels that are equivalent to the cleanest available engine and a DPF. The engine standards include Tier 4 Marine Emission Standards or Tier 4 Final Off-road Emission Standards, or Tier 3 Marine or Off-road Emission Standards (for engines under 600 kilowatts where no Tier 4 engine is commercially available). The DPF requirement is for a CARB-verified Level 3 DPF, if available. DPFs are subject to CARB's Verification Procedure, which is a stringent process that requires manufacturers to demonstrate their DPF devices meet emission reduction requirements, safe operation, and durable in-field performance for over one thousand hours of operation. Level 3 means that the DPF reduces engine diesel PM emissions by 85 percent or greater, or to less than 0.01 grams per brake horsepower-hour (g/bhp-hr). Executive Order DE-24-003 is the product of extensive communication between CARB staff and the United States Coast Guard (USCG) regarding the use of safety systems on DPFs designed for CHC vessels. Approximately 9,000 hours of DPF operation have been accumulated on marine vessels operated in California with no documented safety incidents attributed to the DPF. This Executive Order provides an additional measure of safety for vessels with DPFs operating in a marine environment, while maintaining the public health benefits of the CHC Regulation and the stringency of CARB's Verification Procedure. California Air Resources

Resolution No: 24-0911-07 – This document is the signed resolution documenting the approval and adoption of the 2025 amendments to the Building Energy Efficiency Standards and associated materials. The Building Energy Efficiency Standards apply to residential, non-residential, and hotel and motel buildings. The standards are in Part 6 (also known as the “California Energy Code” or “Energy Code”) and associated administrative regulations in Part 1 Chapter 10, of Title 24 of the California Code of Regulations (CCR). The Building Energy Efficiency Standards also include the Reference Appendices. The revised standards are called the 2025 Building Energy Efficiency Standards (2025 Energy Code), and include the comprehensive regulations, including Parts 1 and 6 and the Reference Appendices, as noticed on 13 June 2024 (notified in G/TBT/N/USA/1336/Rev.1/Add.1) and updated with amended provisions noticed on 22 August 2024 for an additional 15-day public comment period (notified in G/TBT/N/USA/1336/Rev.1/Add.3), and as further revised by this Resolution (the Final Proposed Express Terms), including the errata and provisions the California Energy Commission (CEC) declines to adopt, as identified in Appendix A. Following approval from the California Building Standards Commission (CBSC), the 2025 Energy Code will go into effect on 1 January 2026. 2025 Energy Code Rulemaking Docket Log 24 -BSTD-01:

United States of America 18/09/2024 G/TBT/N/USA/1735/Rev.1 Phasedown of Hydrofluorocarbons: Review and Renewal of Eligibility for Application-Specific Allowances

Notice of proposed rulemaking - The U.S. Environmental Protection Agency is undertaking this rulemaking to assess the eligibility of six applications to receive priority access to allowances allocated pursuant to the American Innovation and Manufacturing Act of 2020. This rulemaking proposes the framework for how EPA will assess whether to renew the eligibility of applications to receive application-specific allowances; decisions to renew or not renew each of the six applications that currently receive application-specific allowances; revisions to the Technology Transitions regulations as relevant to the specific applications under review; a procedural process for submitting a petition to designate a new application as eligible for priority access to allowances; narrow revisions to the methodology used to allocate allowances to application-specific allowance holders for calendar years 2026 and beyond; and limited revisions to existing regulations. EPA is also proposing to authorize an entity to produce regulated substances for export. Lastly, EPA is proposing certain confidentiality determinations for newly reported information if this rulemaking is finalized as proposed.

31/10/2024 Revision to Regular Notification

United States of America 18/09/2024 G/TBT/N/USA/560/Rev.1/Add.1 Manufactured Home Construction and Safety Standards

This final rule amends the Federal Manufactured Home Construction and Safety Standards (MHCSS or the Construction and Safety Standards) by adopting most of the fourth and fifth groups of recommendations made to HUD by the Manufactured Housing Consensus Committee (MHCC). This rule also amends the Manufactured Home Procedural and Enforcement Regulations, the Model Manufactured Home Installation Standards, and the Manufactured Home Installation Program regulations. The MHCC prepared and submitted to HUD its fourth and fifth groups of recommendations to improve various aspects of the MHCSS. HUD reviewed those proposals and drafted a number of proposed revisions to the MHCSS and associated regulations. On 19 July 2022, HUD published a proposed rule (notified as G/TBT/N/USA/560/Rev.1) detailing these revisions to provide the public an opportunity to comment. The comment period closed on 19 September 2022. This final rule adopts HUD's proposed revisions based upon the MHCC's fourth and fifth groups of recommendations with some minor revisions made in response to the public comments. Effective: 17 March 2025. The incorporation by reference of certain publications listed in the rule is approved by the Director of the Federal Register beginning 17 March 2025. The incorporation by reference of certain other publications listed in the rule was approved by the Director of the Federal Register as of 3 July 2014.<sup>89</sup> Federal Register (FR) 67869, Title 24 Code of Federal Regulations (CFR) Parts 328032823285, and 3286

G/TBT/N/USA/1995/Add.2/Corr.3

New Source Performance Standards for the Synthetic Organic Chemical Manufacturing Industry and National Emission Standards for Hazardous Air Pollutants for the Synthetic Organic Chemical Manufacturing Industry and Group I & II Polymers and Resins Industry; Correction

The Environmental Protection Agency (EPA) is making two corrections to the final action that appeared in the Federal Register on 16 May 2024 (notified as G/TBT/N/USA/1995/Add.2). The first correction allows the Office of Federal Register editors to codify and add paragraphs inadvertently removed from that final action in a recent correction published in the Federal Register on 5 July 2024 (notified as G/TBT/N/USA/1995/Add.2/Corr.2). This correction does not alter or change the content or text of any regulatory provision in that final action. The second correction moves the placement of 3 explanatory notes in the regulatory text; this correction does not change the content of the explanatory notes. Effective 12 September 2024.89 Federal Register (FR) 74135, Title 40 Code of Federal Regulations (CFR) Parts 60

United States of America	16/09/2024	G/TBT/N/USA/2148	Di-isononyl phthalate (DINP); Draft Risk Evaluation Under the Toxic Substances Control Act (TSCA); Notice of Availability, Webinar and Request for Comment	Notice and announcement of webinar to be held 26 September 2024 2:00 p.m. - 3:00 p.m. EST - The Environmental Protection Agency (EPA or Agency) is announcing the availability of and seeking public comment on a draft risk evaluation under the Toxic Substances Control Act (TSCA) for di-isononyl phthalate (DINP) (1,2-Benzene- dicarboxylic acid, 1,2- diisononyl ester) (CASRN 28553-12-0). The purpose of risk evaluations under TSCA is to determine whether a chemical substance presents an unreasonable risk of injury to health or the environment, without consideration of costs or non-risk factors, including unreasonable risk to potentially exposed or susceptible subpopulations identified as relevant to the risk evaluation by EPA, under the conditions of use (COU). EPA has used the best available science to prepare this draft risk evaluation and to preliminarily determine that DINP poses unreasonable risk to human health.	04/11/2024 Regular notification

United States of America	10/09/2024	G/TBT/N/USA/1742/R ev.1	Perfluoroalkyl and Polyfluoroalkyl Substances (PFAS) Data Reporting and Recordkeeping Under the Toxic Substances Control Act (TSCA); Change to Submission Period and Technical Correction	Proposed rule; change to submission period and technical correction - The Environmental Protection Agency (EPA or Agency) is proposing to amend the Toxic Substances Control Act (TSCA) regulation with reporting and recordkeeping requirements for perfluoroalkyl and polyfluoroalkyl substances (PFAS) that was finalized on 11 October 2023. The final rule (notified as G/TBT/N/USA/1742/Add.3) requires manufacturers (including importers) of PFAS in any year between 2011-2022 to report certain information to EPA beginning 12 November 2024. EPA is proposing a one-time modification of the data submission period and a technical correction to amend a typographical error in the regulatory text. EPA is not proposing any changes to the scope of reporting under TSCA. EPA has concluded that a change to the submission period is necessary and in the public interest as the reporting application being developed to collect this data will not be fully functional by November 2024. The proposed revision of the submission period would facilitate compliance with the rule and help ensure that the collection includes accurate data on manufactured PFAS in the United States. EPA thus believes the proposed amendments are necessary and does not expect to receive any adverse comments. Therefore, in addition to this notice of proposed rulemaking, in the "Rules and Regulations" section of this issue of the Federal Register, EPA is promulgating the submission period modification and technical correction as a direct final rule. For more information on this proposal, please refer to the direct final rule (notified as G/TBT/N/USA/1742/Add.4).	07/10/2024 Revision to Regular Notification
United States of America	10/09/2024	G/TBT/N/USA/2143	Prevention of Air Pollution from Consumer Products	Proposed rule - The New Jersey Department of Environmental Protection (NJDEP) is proposing amendments to N.J.A.C. 7:27-24.1 through 24.8, 24.10, and 7:27A-3.10. The proposed amendments to the rules governing chemically formulated consumer products will add eight new categories of consumer products that will be subject to new volatile organic compound (VOC) content limits and lower the VOC content limits for 13 existing categories. The proposed amendments also prohibit the sale for use in New Jersey of certain products that contain chlorinated toxic air contaminants. The proposed amendments also update registration requirements for all consumer products to require registration to be electronic. Additionally, the proposed rulemaking includes amendments to the penalty provisions at N.J.A.C. 7:27A-3.10 that correspond to the amendments at N.J.A.C. 7:27-24. The proposal also constitutes a revision to New Jersey's State Implementation Plan (SIP) for the attainment and maintenance of the National Ambient Air Quality Standards for ozone.	18/10/2024 Regular notification

G/TBT/N/USA/1872/Add.1

Standards of Fill for Wine and Distilled Spirits

The Alcohol and Tobacco Tax and Trade Bureau (TTB) is reopening the comment period for a proposed rule (Notice No. 210) published on 25 May 2022 (notified as G/TBT/N/USA/1872), which proposed changes to the authorized standards of fill for wine and distilled spirits, to solicit comments on additional suggestions raised in public comments made in response to Notice No. 210 that go beyond the scope of the original proposal. In Notice No. 210, TTB proposed to add 10 authorized standards of fill to those already authorized for wine, and alternatively, eliminating all but a minimum standard of fill for wine containers and all but a minimum and maximum for distilled spirits containers. TTB did not propose any specific standards of fill for distilled spirits as an alternative to generally eliminating them. TTB received a number of comments in response to the notice of proposed rulemaking requesting that TTB add specific new standards of fill for distilled spirits, as well as for wine, and also requesting that TTB consider eliminating the distinction between the standards of fill for distilled spirits in cans and those for distilled spirits in containers other than cans. TTB is now reopening the public comment period based on these suggestions, to provide notice to stakeholders that TTB is considering these additional requests for potential inclusion in the final rule and to also provide an opportunity for stakeholders to submit additional information to assist TTB in assessing whether to incorporate some, all, or none of these proposals into the final rule. The comment period for the proposed rule published on 25 May 2022 (87 FR 31787), is reopened. TTB must receive your comments on or before 9 October 2024.<sup>89</sup> Federal Register (FR) 73050, Title 27 Code of Federal Regulations (CFR) Parts 45192426, and 27

United States of America	10/09/2024	G/TBT/N/USA/1742/Add.4	Perfluoroalkyl and Polyfluoroalkyl Substances (PFAS) Data Reporting and Recordkeeping Under the Toxic Substances Control Act (TSCA); Change to Submission Period and Technical Correction	<p>The Environmental Protection Agency (EPA or Agency) is taking direct final action to amend the Toxic Substances Control Act (TSCA) regulation with reporting and recordkeeping requirements for perfluoroalkyl and polyfluoroalkyl substances (PFAS). As promulgated in October 2023, the regulation requires manufacturers (including importers) of PFAS in any year between 2011-2022 to report certain data to EPA related to exposure and environmental and health effects. EPA is making a one-time modification to change the beginning of the data submission period from 12 November 2024, to 11 July 2025, with a corresponding change to the end of the submission period. EPA is also making a technical correction to address an error in the regulatory text. There are no other changes to the reporting and recordkeeping requirements in the existing rule under TSCA. This rule is effective 4 November 2024 without further notice. However, if EPA receives adverse comment by 7 October 2024, the Agency will publish a timely withdrawal in the Federal Register informing the public that this direct final rule will not take effect. 89 Federal Register (FR) 72336, 40 Code of Federal Regulations (CFR) Part 705 <a href="https://www.govinfo.gov/content/pkg/FR-2024-09-05/html/2024-19931.htm">https://www.govinfo.gov/content/pkg/FR-2024-09-05/html/2024-19931.htm</a></p> <p><a href="https://www.govinfo.gov/content/pkg/FR-2024-09-05/pdf/2024-19931.pdf">https://www.govinfo.gov/content/pkg/FR-2024-09-05/pdf/2024-19931.pdf</a> This action and previous actions notified under the symbol G/TBT/N/USA/1742 are identified by Docket Number EPA-HQ-OPPT-2020-0549. American Society of Mechanical Engineers 2021-2022 Code Editions

The U.S. Nuclear Regulatory Commission (NRC) is amending its regulations to incorporate by reference the 2021 Edition of the American Society of Mechanical Engineers Boiler and Pressure Vessel Code and the 2022 Edition of the American Society of Mechanical Engineers Operation and Maintenance of Nuclear Power Plants, Division 1, OM Code: Section IST, for nuclear power plants. This action is in accordance with the NRC's policy to periodically update the regulations to incorporate by reference new editions of the American Society of Mechanical Engineers Codes and is intended to maintain the safety of nuclear power plants and to make NRC activities more effective and efficient. This amendment also incorporates editorial changes that do not change the technical information. This final rule is effective on 30 September 2024. The incorporation by reference of certain publications listed in the regulation is approved by the Director of the Federal Register as of 30 September 2024.88 Federal Register (FR) 70449, Title 10 Code of Federal Regulations (CFR) Parts 50
